ACCREDITATION STATEMENT

Douglas High School is accredited by the New England Association of Schools and Colleges, a non-governmental, nationally recognized organization whose affiliated institutions include elementary schools through collegiate institutions offering postgraduate instruction.

Accreditation of an institution by the New England Association indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer group review process. An accredited school or college is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation of an institution by the New England Association is not partial, but applies to the institution as a whole. As such, it is not a guarantee of the quality of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance concerning the quality of opportunities available to students who attend the institution. Inquiries regarding the status of an institution's accreditation by the New England Association should be directed to the administrative staff of the school. Individuals may also contact the Association.

I. Legal Issues Affecting Students

A. POLICY ON NON-DISCRIMINATION

The Douglas Public School District strives to provide a safe, respectful, and supportive learning environment in which all students can thrive and succeed in its schools. The Douglas Public Schools prohibits discrimination on the basis of race, color, sex, gender identity, religion, national origin, or sexual orientation, or homelessness and ensures that all students have equal rights of access and equal enjoyment of the opportunities, advantages, privileges, and courses of study. (As mandated by Chapter 622 of the Massachusetts Acts of 1971 and Chapter 282 of the Acts of 1993, General Laws Chapter 76, Section 5; and Chapter 199 of the Acts of 2011, amended statutes G.L.c. 76, & 5)

All inquiries regarding compliance with Title IX and Chapter 622 should be made to Dr. Paul Vieira, Superintendent of Schools, or may be reported directly to the director of the Office for Civil Rights, U.S. Department of Health and Human Services, JFK Federal Building Room 1875, Boston, MA 02203, (617) 565 1340, 617 565 1343 (TDD).

In addition, no person between ages three and 21 will be denied a free, appropriate, public education in the least restricted environment, as required and mandated by Massachusetts Regulation 603 CMR 28.00 and IDEA, 2004.

Section 504 of the Rehabilitation Act

Section 504 is a Civil Rights Law which prohibits discrimination based upon disabilities and requires that schools as well as other publicly funded organizations make reasonable accommodations to ensure equal participation by individuals with disabilities. The spirit and intent of the law is to remove barriers to employment, education, and communication.

Students who have a physical or mental impairment which substantially limits one or more major life activities, have a record of such impairment, and/or are regarded as having such an impairment are eligible. Section 504 calls for a committee of individuals (parents, teachers, administrator, nurse...) knowledgeable about the student to make the determination that:

- (1) there is a disability, or it is suspected or assumed that there is a disability, and
- (2) the disability substantially (as opposed to mildly or moderately) limits a major life function. It is important to note that learning is considered a major life function.

The student's Counselor, based upon the input of the aforementioned group, writes the plan. This plan is provided to the parent and all school system personnel who will provide the accommodations outlined in this plan. A copy of this plan is placed in the student record and reviewed annually whenever there is a significant change.

B. DISCIPLINE OF STUDENTS UNDER SECTION 504 AND ADA

Under various federal and state laws and regulations, students with disabilities may not be discriminated against in discipline matters on the basis of their disability or impairment. In addition to those rights set forth in this handbook, the following procedures will be implemented to comply with state and federal laws and regulations regarding students with disabilities. Procedures for students eligible for special education services are set forth in "Discipline of Special Needs Students" in this handbook.

1. Definition: A student with a disability is a student who has had or is perceived to have a physical or mental impairment that substantially limits one or more major life activities. This category includes students who are found to currently have such an impairment, have a record of having such an impairment, or who are perceived as having such an impairment.

2. Procedure: In the event that a student is found to have violated a school rule after implementing the general due process procedures (notice and hearing) provided in this handbook or under other school policies, the Principal or his/her designee shall ascertain whether the student has been identified as a student with a disability under Section 504.

a. If the student has not been identified as disabled, the Principal or his/her designee must consider whether the circumstances surrounding the disciplinary incident suggest the existence of a disability.

b. In the event that the Principal or his/her designee concludes that there is no reason to suspect a disability, the student may be disciplined according to the regular disciplinary sanctions of the Douglas High School Student Handbook.

c. If the circumstances suggest that the student may be disabled, the Principal or his/her designee shall refer the student to the 504 Committee to evaluate whether the student has a disability.

d. If the student is identified or has previously been identified as a student with a disability under Section 504, prior to taking disciplinary action which would result in a suspension of one (1) to ten (10) days, the Principal or his/her designee shall determine whether the student's misconduct is a manifestation of his or her disability and assure that all disciplinary actions are consistent with the mandates of Section 504.

e. If the student is identified or has previously been identified as a student with a disability under Section 504 and/or is so identified upon an initial 504 evaluation and the disciplinary sanction or cumulative disciplinary sanction could result in a suspension from school for more than ten (10) days and the 504 Committee determines that:

i. the student is or continues to be disabled and his or her misconduct has a direct and substantial relationship to his or her disability

ii. the violation of school rules is a direct result of a failure to accommodate the student's disability or an inappropriate or unimplemented 504 plan then the student will not be suspended from school provided, however, that the 504 Committee may determine that the student's 504 plan should include modifications to address the student's misconduct including but not limited to delivery of educational services at an alternative site, behavioral modification plans, or any other appropriate modification or accommodation of disciplinary consequence consistent with Section 504.

f. In the event that the student previously has been identified as a student with a disability under Section 504 and/or, upon an initial 504 evaluation, the 504 Committee determines that the student is or continues to be disabled but his or her violation of school rules is not related to his or her disability, a failure to accommodate, or an inappropriate or unimplemented 504 plan, regular disciplinary sanctions under the Douglas High School Student Handbook may be imposed.

3. Evaluation / Re-evaluation

Initial evaluation pursuant to this policy and re-evaluation of students with disabilities under Section 504 who may be subject to suspension or expulsion for more than ten (10) cumulative days shall be conducted pursuant to Section 504. Determination of disability and disability relatedness under subpart 2(a), 2(c), 2(d), and 2(e) of this policy by the 504 Committee will be made prior to the imposition of disciplinary sanction.

C. DISCIPLINE OF STUDENTS WITH DISABILITIES

1. The Principal or his/her designee will notify the Special Education Office of any offense committed by a student with a disability warranting suspension. A record will be kept of such notices.

2. When it is known that the suspension of a student with a disability may accumulate ten (10) days in a school year, a review of the IEP for sufficiency as required by Federal Special Education Regulations (IDEA 2004) will be held to determine the appropriateness of the student's placement or program. The Team will make a finding as to the relationship between the student's violation of the discipline code and his or her disability.

a. If the IEP Team finds that the student's violation of the discipline code is related to his or her disability or the Team determines that the current IEP is inappropriate, the Team will develop an amended IEP.

b. If the student's violation of the discipline code is not related to his or her disability or to an inappropriate IEP, a suspension may be imposed. The Team will determine a placement in which the student will receive services during periods of suspension beyond ten (10) days, which provides access to the general

curriculum and addresses his or her IEP goals. All required regulatory procedures will be followed should further disciplinary consequences become necessary.

c. If a student carries a weapon to school or to a school function, or if the student possesses or uses illegal drugs, drug paraphernalia, or sells or solicits the sale of a controlled substance while at school or a school function, the Principal may order the change of placement for forty-five (45) days. The placement will be determined by the IEP Team.

d. In cases where a student's violation of the discipline code presents a danger to other students, staff, or the student himself/herself, and the parent or guardian does not accept the proposed placement, the School Committee will immediately seek court approval to suspend or exclude the student from Douglas High School.

e. Any dispute regarding the IEP will be resolved through the special education dispute resolution process. If a hearing is requested, the student will stay in his or her current placement unless a court determines otherwise or the parent agrees to an alternate setting pending resolution of the dispute.

D. HAZING

CH.269,S.17. CRIME OF HAZING: DEFINITION: PENALTY Whoever is a principal organizer or participant in the crime of hazing as defined herein shall be punished by a fine of not more than three thousand dollars or by imprisonment in a house of correction for not more than one year, or by both such fine and imprisonment.

Each such group, team, or organization shall distribute a copy of this section and sections seventeen and eighteen to each of its members, plebes, pledges, or applicants for membership. It shall be the duty of each such group, team, or organization, acting through its designated officer, to deliver annually, to the institution an attested acknowledgment stating that such group, team, or organization has received a copy of this section and said sections seventeen and eighteen, that each of its members, plebes, pledges, or applicants has received

The board of regents and, in the case of secondary institutions, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution which fails to make such report. Added by St. 1985, c.536; amended by St. 1987, c.665.

E. TOBACCO USE BY STUDENTS

CH.71, S.2A PROHIBITION AGAINST THE USE OF TOBACCO BY STUDENTS It shall be unlawful for any student enrolled in either primary or secondary public schools in the Commonwealth to possess or use tobacco products, including but not limited to cigarettes, cigars, pipes, snuff, or chewing tobacco, on school premises or at school-related functions. All incendiary devices (i.e. lighters, matches, etc.) are prohibited at all school-related functions. "Use" means a student has smoked, ingested, injected, imbibed, inhaled, drunk, or otherwise taken internally a prohibited substance recently enough that it is detectable by the student's physical appearance, actions, breath, or speech. This prohibition includes e-cigarettes and vaping devices.

Consequences for possession or use of tobacco products on school grounds or at school-related functions are outlined in the Discipline Chart.

F. WEAPONS

In all weapons cases, the police will be notified and legal action will be initiated.

A student shall not possess, use, or attempt to use any weapon on school premises or at a school-related function. In order to protect the students of the Douglas Public Schools, the building Principal and/or Superintendent of Schools will expel for a minimum of one calendar year any secondary school student in possession of a gun or a knife on school premises or at a school-sponsored function.

All lockers available to students are the property of the Douglas Public Schools. Use of lockers by students is regulated by the school administration and all lockers are subject to inspection by the school administration at any time. Any weapon found in a locker in violation of school policy may be considered to be the property of the student assigned to the locker for purposes of disciplinary action under this code.

For purposes of this policy, a "weapon" includes, but is not limited to, a gun, a bullet, knife, slingshot, blowgun, blackjack, metallic knuckles, including a ring intended to be worn on more than one finger (fused rings) or knuckles of any substance which could be put to the same use with the same or similar effect as metallic knuckles, nunchaku, zoobow, also known as klackers or kung fu sticks, or any similar weapon consisting of two sticks of wood, plastic, or metal connected at one end by a length of rope, chain, wire, or leather, a shuriken or any similar pointed starlike object intended to injure a person when thrown, or any armband, made with leather which has metallic spikes, points, or studs or any similar device made from any other substance or a cestus or similar material weighted with metal or other substance and worn on the hand, or a similar length of chain having weighted ends. Any other device or object used or attempted to be used to inflict bodily harm on a person may be considered a weapon.

This policy will be implemented according to the due process provisions of the Douglas Public Schools discipline code applicable to general and special education students. Students will acknowledge receipt of the policy by signing a receipt form stating knowledge of the weapons policy (JICI) from the Douglas School Committee and have read its contents. This form will be included in each student's first day informational packet and is available at the Douglas High School main office. The receipt card/form will be kept on file in the Principal's Office.

CHAPTER 269, S.10 PROHIBITION AGAINST FIREARMS IN SCHOOLS: Whomever, not being a law enforcement officer, and notwithstanding any license obtained by him under provisions of chapter one hundred and forty, carries on his person a firearm as hereinafter defined, loaded or unloaded or other dangerous weapon in any building or on the grounds of any elementary or secondary school, college or university shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both. For the purpose of this paragraph, "Firearm" shall mean any pistol, revolver, rifle, or smoothbore arm from which a shot, bullet, or pellet can be discharged by whatever means.

Any officer in charge of an elementary or secondary school, college or university or any faculty member or administrative officer of an elementary or secondary school, college or university failing to report violations of this paragraph shall be guilty of misdemeanor and punished by a fine of not more than five hundred dollars. Amended by St. 1987, C.150, S.2; St.1989 C.648

General Laws: CHAPTER 71, Section 37H3/4 Section 37H3/4. (a) This section shall govern the suspension and expulsion of students enrolled in a public school in the commonwealth who are not charged with a violation of subsections (a) or (b) of section 37H or with a felony under section 37H1/2. See the following link for complete details. <https://malegislature.gov/Laws/GeneralLaws/PartI/TitleXII/Chapter71/Section37H3~4>

G. ARTICLES PROHIBITED FROM SCHOOL

Problems arise each year because students bring articles to school that are hazardous to the safety of others or interfere in some way with school procedure. Items such as playing cards, toys, toy guns, water pistols, spray paint, explosive devices, and tobacco products and weapons are prohibited. Pornographic materials are also prohibited. These items will be confiscated and will only be returned to a parent.

The following items, if brought to school, must not be visible, must be shut off and secured in students' lockers or on their person. These items include, but not limited to, radios, tape players, cameras, and iPods. Hats (worn, carried, or secured on a belt) must also be secured in students' lockers during school hours. Please note: The school is not responsible for personal items brought to school that are lost or stolen.

H. VIOLENT BEHAVIOR, ASSAULT

Violent behavior is inconsistent with an educational environment. Violence disrupts learning and can result in serious - even fatal - injuries to students, faculty, administrators, and other staff. Consequently, the Douglas Public Schools will not tolerate violence of any kind, in its schools, on its grounds, or at school-related events. The following conduct is prohibited:

Assault: Assault is intentional physical or verbal conduct by a student directed at another person, which results in unwanted contact with that person, or reasonably places that person in fear of imminent, unwanted physical contact. Examples of assault include striking another person, shoving another person, attempting or pretending to strike another person, brandishing a fist or weapon, or moving close to someone in a threatening manner.

Threats of Violence Threats of violence include any written or spoken words, pictures, symbols, or anything else that can reasonably be interpreted as expressing an intention to commit a violent act against another person. This includes any threats of violence that are electronically transmitted. Any explicit or implicit verbal threat to the safety of a staff member (including his/her possessions) will result in a five-day suspension from school. This matter will also be reported to the police. An expulsion hearing may be held at the discretion of

the principal. Any explicit or implicit threat against another student will result in disciplinary action and/or possible legal action.

Possession or Use of Weapons See the policy on possession or use of weapons in this handbook.

Property Damage Property damage is considered violent behavior when carried out as a means to threaten, intimidate, or harm another person.

I. STEALING

Stealing and pilfering are crimes and may be reported to the Police Department. Disposition of such incidents may be handled by the police in conjunction with school officials. See Code of Conduct.

J. VANDALISM

Any pupil who willfully damages or destroys school property or the property of others on school grounds shall, through his parents or guardian, be held liable for such damage or destruction. See Code of Conduct.

K. HARASSMENT

Harassment is repeated misconduct directed at another person, with the intent or effect of unreasonably interfering with that person's legitimate activities. Harassment may involve any of the behaviors listed above, as well as other behavior, such as verbal abuse, inappropriate or unwanted telephone calls, inappropriate or unwanted text and voice messages, inappropriate or unwanted messages on on-line social networking sites (for example, Facebook, Instagram, Snapchat, etc.), inappropriate or unwanted notes, and "stalking." Furthermore, harassment directed at one's race, gender, ethnicity, sexual orientation, age, religious beliefs (or lack thereof), political viewpoints, physical appearance, and physical/mental disabilities is unacceptable and will not be tolerated. Incidents of harassment will result in disciplinary action including but not limited to suspension and or expulsion. Depending upon the nature and severity of the harassment, law enforcement may become involved.

Reporting and Investigation: Students are encouraged to report violations of this policy to the assistant principal. However, if a student reports an incident to a teacher or counselor, the teacher or counselor must report it to the assistant principal. The school will thoroughly investigate reports of violent behavior, as defined in this policy, and will keep reports confidential to the extent consistent with a thorough investigation.

Discipline: Students who violate this policy may face suspension or expulsion, depending upon the severity of the conduct. Suspension or expulsion will be handled in accordance with the discipline procedures in this handbook. In appropriate cases, the police or other governmental agencies may be notified.

PARENTAL NOTIFICATION RELATIVE TO SEX EDUCATION

In accordance with General Laws Chapter 71, Section 32A, the Douglas School Committee has adopted this policy on the rights of parents and guardians of our students in relation to curriculum that primarily involves human sexual education or human sexuality issues.

At the beginning of each school year, all parents/guardians of students in our schools will be notified in writing of the courses and curriculum we offer that primarily involve human sexual or human sexuality issues. The Superintendent of Schools will determine the administrator(s) responsible for sending the notice(s). Parents/guardians of students who enroll in school after the start of the school year will be given the written notice at the time of enrollment. If planned curriculum change during the school year, to the extent practicable, parents/guardians will be notified of this fact in a timely manner before implementation. For an inclusive view of district policy for homeless students, please go to the Districts homepage, select "District Policy Manual". Parental Notification Relative To Sex Education is policy: IHAMA.

L. PREGNANCY

The Douglas Public Schools wishes to pursue educational opportunities for those students who may become pregnant and/or take on parenting responsibilities. Pregnant students will be permitted to remain in regular classes and participate in extracurricular activities with non-pregnant students throughout their pregnancy and, after giving birth, will be permitted to return to the same academic and extracurricular programs as before their leave.

The Douglas Public School District *does not* require a pregnant student to obtain the certification of a physician that the student is physically and emotionally able to continue in school. The school's administration and faculty, in collaboration with the student, the student's family, and physician, will work to create a supportive environment in which the student can succeed. The school nurse and the counseling department staff also serve as resources for the student and family. In addition, any student with medical complications arising from pregnancy and documented by her physician will be provided with tutoring. These provisions are found in the District's Policy Manual under section: JIE

M. SEXUAL HARASSMENT

Introduction: The Douglas School Committee (the "Committee") depends upon an environment of tolerance and respect for the achievement of its goals. The Committee is committed to provide an environment that is free of all forms of abuse or harassment. The Committee recognizes the right of all employees as well as students to be treated with respect and dignity. (For purposes of this policy, the word "employee" means anyone in the service of the Committee, either on a paid or volunteer basis.)

Sexual harassment is a form of behavior that adversely affects the employment and/or student relationship. It is prohibited by State and Federal law. The Committee also condemns and prohibits sexual harassment by any employee or student.

Sexual harassment does not refer to purely voluntary social activities. It refers to behavior which is not welcomed by the employee or student, which is personally offensive to him or her, and which undermines morale and/or interferes with the ability of the employee or student to function normally.

Sexual harassment includes such unwelcome actions as:

- sex-oriented verbal abuse;
- sexual remarks or jokes;
- physical contact including patting, pinching, or constant brushing against another's body;
- demands or requests for sexual favors accompanied by implied or overt promises of preferential treatment or threats concerning an individual's status as an employee or student; and
- assaults or molestation.

It is, therefore, against the policies of the Committee for any employee or student of the school department, male or female, to harass another employee or student, sexually, that is, by making unwelcome sexual advances, requests for sexual favors, or other uninvited verbal or physical conduct of a sexual nature when:

- submission to such conduct is made either implicitly or explicitly a term or condition of an employees' employment or a student's status;
- submission to, or rejection of, such conduct by an individual is made the basis for employment or student status decisions affecting the employee or student;
- such conduct has the purpose or effect of interfering with an individual's work or student performance;
- retaliation is threatened or undertaken against an individual who complains that such conduct is interfering with his/her work or school performance; or
- a hostile or intimidating environment is created for the employee or student.

Violation of Policy: Any employee or student violating this policy will be subject to appropriate discipline, including possible discharge for the employee by the Superintendent and expulsion for the student.

Procedures for Complaints: The Committee has designated Sexual Harassment Grievance Officers. The current Sexual Harassment Grievance Officers are as follows:

- Kevin Maines, Superintendent of Schools
- Alternate: Nealy Urquhart, Assistant Superintendent of Student Support Services
- High School: Joshua Romano, Principal
- Alternate: Desi Vega, Assistant Principal

If any employee or student believes he or she has been subject to sexual harassment, the employee or student should initiate a complaint by contacting the Sexual Harassment Grievance Officer as soon as possible. The employee or student should file the complaint promptly following any incident of alleged harassment. The employee or student should be aware that the longer the period of time between the event giving rise to the complaint and the filing, the more difficult it will be to reconstruct what occurred. The employee or student will be requested to write out his or her complaint to document the charge. Employees or students will not have to go through the regular chain of reporting procedures when reporting sexual harassment. If the employee or student is uncomfortable contacting the Sexual Harassment Grievance Officer because he or she believes the Sexual Harassment Grievance Officer may not receive the complaint impartially, the employee or student may contact the Alternate Sexual Harassment Grievance Officer.

Investigation: On receiving the complaint, the Sexual Harassment Grievance Officer or Alternate will promptly have a confidential preliminary investigation of the matter. If, after the completion of this preliminary investigation, it is determined that there is reasonable cause for finding a violation of this policy, the complainant and the charged employee or student will be notified of the finding orally. The charged employee or student will be requested to respond to the complaint. Additional investigation will be made to the extent appropriate in each case.

Decision: After the response of the charged employee or student has been made, and any further investigation that may be warranted has been carried out, the Superintendent will make a final decision. If the Superintendent finds that the allegations in the complaint have been established by the investigation, the Superintendent will initiate discipline of the charged employee or student. Discipline will be appropriate to the offense and employees or students involved, and may include discharge or expulsion. The complainant will be notified of the disposition of the investigation.

Acknowledgment of Receipt of Policy: Staff members and students acknowledge receipt of this policy by signing a receipt form stating, "I acknowledge receipt of this policy from the Douglas School Committee and I have read its contents." Students acknowledge this policy by signing off that they have read the student handbook. The receipt form will be kept in the Principal's Office.

N. ALCOHOLIC BEVERAGES AND DRUGS

The Douglas Public Schools will not tolerate the use, possession, distribution or manufacture or being under the influence of any illegal drug, drug paraphernalia, or alcoholic beverage, in school, on school property, or at any school-related activity. This policy also applies to prescription drugs when they are not turned in to the school nurse.

The Douglas Public Schools encourages students with drug or alcohol problems to seek voluntary assistance, and the school will endeavor to provide assistance to any student voluntarily seeking drug or alcohol treatment or advice.

Prescription drugs for which the student has a valid prescription must be deposited with the school nurse during school hours and administered by the nurse as necessary. In cases where this is impossible for health

reasons, students must present certification to this effect to the school nurse as soon as possible after the drug has been prescribed. In cases where the school nurse may not be available to administer a student's prescription (after-school activities, field trips, etc.), a parent must be present to dispense the prescription. No over-the-counter drugs are to be carried by the student. If these drugs are necessary, they must be maintained in the school nurse's office.

Any student who, while in school, on school property, or otherwise engaged in or attending a school-related activity, (1) uses or is under the influence of any illegal drug or alcohol, (2) has an illegal drug or alcoholic beverage in his/her possession, or (3) buys, sells, manufactures or distributes an illegal drug or alcoholic beverage or attempts to do so, is subject to discipline, up to and including expulsion and referral for prosecution.

Definitions: "Drug," "illegal drug," and "controlled substance" shall include, but is not limited to:

- Any substance regulated or controlled pursuant to M.G.L.C. 94C, including but not limited to, cocaine, marijuana, hashish, amphetamines, methamphetamines, and heroin.
- Drug paraphernalia as defined below.
- Any prescription drug obtained, carried, or distributed on school grounds other than through a valid prescription.
- Other substances used to produce euphoria or a "high," such as glues, paint, aerosols and other office or cleaning products.

"Drug paraphernalia" shall include, but is not limited to:

- Pipes, bongs, roach clips, rolling papers, needles, syringes, electronic smoking devices (Vapes, Juuls, etc), spoons or tubes used for sniffing powdered drugs, or baggies, capsules or other devices used for storing drugs; and
- Any other object or substance used for the ingestion, possession, transportation, distribution, or manufacture of illegal drugs. Investigation Students can expect the school to conduct a vigorous and thorough investigation when school officials receive reports concerning illegal drugs or alcohol on school premises or at school-related activities. Students are expected to cooperate fully with school officials investigating drug abuse or any other matter outlined in this policy. Failure to cooperate with an investigation may be grounds for discipline.

Students Under the Influence of Alcohol or Drugs: If the school suspects that a student is under the influence of alcohol or drugs, while in school or at a school-related event, the student may be referred to the school nurse, if available, for an evaluation. If necessary for the student's safety, paramedics and/or police will be called to take the student to the hospital for medical evaluation. The student's parents will be notified immediately in the case of such an event.

Students Seeking Assistance: The school encourages students to voluntarily seek the assistance of a school administrator to obtain drug or alcohol treatment or advice. Parents will normally be involved as part of the team of adults enlisted to consider the best possible means of helping the students.

Disciplinary Consequences for Violation of Drug Policy: Students who violate the school's drug policy are punishable by immediate out-of-school suspension for not less than three (3) days, nor more than ten (10) days, the maximum time period allowed. Loss of privileges (ex. Parking permit, extracurricular activities, etc.) as well as expulsion will be at the discretion of the administration. Police: The Principal, immediately after finding a student in violation of the drug policy, will furnish the police department with a complete report, including, if any, the controlled substances, alcoholic beverages, and other physical evidence obtained for analysis and such criminal action as the police department may determine. Other Agencies: In appropriate cases, the school may file a CRA, Child Requiring Assistance Petition, with the appropriate court, or report violations of this policy to the Department of Social Services.

O. SCHOOL SEARCHES

Desk and Locker Searches Desks and lockers assigned to (or used by) individual students by the school remain school property and may be inspected or searched by school officials at any time in the performance of their duties. Items found in a student's locker or desk will be treated as though they are in the possession of the student.

Searches of the Person School administrators may search a student (including pockets, book bags, purses, etc.) upon reasonable suspicion that the student is in possession of illegal drugs or any other contraband. Reasonable suspicion can be gained by observation of the student's behavior, information from reliable sources, or other facts leading the school to believe that drugs or contraband will be found in the place to be searched. Students returning from suspension for drug or violence-related offenses should expect to be searched prior to being readmitted to school.

Searches of Cars on School Property: Any car parked on school property may be subject to a search if there is reasonable suspicion of drugs, alcohol, weapons, or any other contraband. For an inclusive view of district policy for Interrogations and Searches, please go to the District Policy Manual and reference policy: JIH.

MEMORANDUM BETWEEN DOUGLAS PUBLIC SCHOOLS AND THE DOUGLAS POLICE DEPARTMENT

The Douglas Public School District and the Douglas Police Department are committed to working cooperatively in providing a safe and secure environment for all children in the schools and in the community. It is the priority of both departments to work in concert to provide the safest and most secure learning environment possible for the students of Douglas. It shall be their responsibility to continually work in partnership, to build upon and strengthen this relationship which will in turn, benefit the students and their parents, staff members, and the administrators throughout the school district and the community of Douglas.

In the ongoing effort to establish the safest learning environments possible, the schools and the police have agreed on the designation and implementation of a police liaison who will act as the individual primarily responsible for providing security on the school campuses within the district. This liaison will have several responsibilities, not the least of which will be sharing of information among the two departments whenever it concerns the overall health and well-being, safety and security interests of all students, faculty and employees.

To that end, the Douglas Public School District and the Douglas Police Department have recognized that perhaps the most important strategy among several, is open communication and the perpetual sharing of information, and have identified it as vital to the successful implementation of a School Resource Officer Program. School administrators and staff members, law enforcement personnel, court personnel (including prosecutors and probation officers), and social service professionals must all agree to maintain open lines of communication in order to ensure the success of this or any similar collaboration. The effort must be seen as a collective partnership, where multiple entities work in harmony to achieve the ultimate objective which is the existence and maintenance of an educational environment that is free of violence and one in which students feel protected, nurtured and secure.

SECURITY CAMERAS IN SCHOOLS

The Douglas Public Schools strive to maintain a safe and secure school environment for its students, staff, faculty, visitors and facilities. To ensure this goal all Douglas Public Schools employ the use of security cameras to monitor its buildings, grounds and equipment as well as to monitor behaviors and personal conduct. The district works to ensure adherence to proper procedures for the viewing, recording, storage of data use of any video recordings relative to applicable laws and regulations. The video recordings of these security cameras for safety and security purposes are the property of the school district. Access to these video recordings shall be restricted to school administrators, office personnel and the district's facility manager. The S.R.O. and law enforcement may be granted access to video recordings or to the security system after having given notification of this request to the school Superintendent or a designee.

ADVERTISING IN SCHOOLS

The Douglas School Committee will place limits on commercial activities and fund-raising activities in the schools for the following reasons:

1. The school system should provide students, parents, and employees some measure of protection from exploitation by commercial and charitable fund-raising organizations.
 2. The school system should not give the public the impression of generally endorsing or sanctioning commercial and fund-raising activities.
 3. Commercial and fund-raising activities may disrupt school routine and cause loss of instructional time.
- Following these guiding statements, the Superintendent and principals may permit occasional commercial or fund-raising activities related to the objectives of the schools with the following exceptions:
1. No direct solicitation of students or employees may take place without School Committee permission.
 2. No general or class distribution of commercial or fund-raising literature may take place without School Committee permission.

For the purposes of this policy, local PTA and PTO groups and groups representing school system employees will be considered "school groups" and will be governed by the Committee's policy on staff solicitations.

COMMUNITY USE OF BUILDINGS

It is the School Committee's desire that maximum use of school property be enjoyed by the townspeople. It is the Committee's intent that such use will maintain safe conditions and preserve the property for school program use.

Use of school buildings and other facilities by organizations will be permitted only when a worthy educational, civic, or charitable purpose will be served; or a substantial group of citizens from the community will be benefited.

School facilities will be used according to the regulations and rental fee schedules recommended by the Superintendent and approved by the School Committee. For an inclusive view of district policy for Community Use of Buildings, please go to the District Policy Manual and reference policies: KF & KFR.

ANIMALS IN SCHOOLS

No animal shall be brought to school without prior permission of the building Principal. School Principals, in consultation with the Health Services Providers in each building, shall utilize the Department of Public Health publication "Guidelines for Animals in Schools or on School Grounds" and review student health records to determine which animals may be allowed in the school building. The decision of the Principal shall be final. For an inclusive view of district policy for Animals in Schools, please go to the District Policy Manual and reference policy: IMG

II. ACADEMIC ISSUES

A. ACADEMIC DISHONESTY, CHEATING, AND PLAGIARISM

Academic dishonesty (cheating and plagiarism) will not be tolerated. Cheating includes (but is not limited to):

B. COMPUTER AND INTERNET ACCESS

The Douglas Public School District offers a multitude of computer technology resources and Internet access points in each school and classroom. The purpose of this technology and the Internet access is to enhance education and research by providing students and faculty with a means to access online resources and increase communication.

The use of all computer technology resources and Internet access must be consistent with the educational objectives of the school district and within guidelines detailed in our Internet Safety & Acceptable Use Policy (AUP) which is compliant with the Children's Internet Protection Act (CIPA). All users who use the Douglas Public School's computer technology and/or Internet access are expected to read the AUP and then sign and return the agreement page. Adherence to the AUP and the return of a signed agreement page is a condition for the privilege of computer usage and/or Internet access.

The Internet is a global network linking computers at universities, schools, laboratories, and other sites. Through the Internet, one can communicate with people all over the world through discussion forums and electronic mail. In addition, many educationally valuable files may be downloaded from the Internet. Because of its enormous size and resources, the Internet's educational potential will assist in preparing your child for success in life and work.

Since the Internet contains a broad spectrum of resources, there are many avenues for potential misuse and abuse. As a result, Congress passed the Children's Internet Protection Act (CIPA) and the Neighborhood Children's Internet Protection Act (N-CIPA) in December 2000. CIPA and N-CIPA are federal guidelines for establishing a minimal Internet Safety and Acceptable Use Policy for the protection of minors in school and library facilities. Our school district has revised our AUP to comply with the FCC's CIPA and N-CIPA rules. By complying with CIPA and N-CIPA, our district will continue its eligibility to receive federal (ERATE) funding for Internet access. In brief, the CIPA rules state that an Internet Safety Policy is established which enforces monitoring online activities of minors and that a technology protection measure is implemented which blocks or filters visual images that are:

- Obscene
- Child Pornography
- Harmful to Minors The N-CIPA rules further state a policy must also address the following:
 - Address and restrict access to materials on the Internet "inappropriate for minors," which is determined by the local school district.
 - Safety and security "monitoring" of minors using E-mail, Chat rooms, instant messaging, etc.
 - Unauthorized access, including hacking, and other unlawful activities on-line.
 - Unauthorized disclosure, use, and dissemination of personally identifying information about minors.
 - Measures designed to restrict minors' access to "materials harmful to minors."

The Douglas Public School District has implemented a network firewall solution that will provide URL content filtering/blocking, port filtering and/or blocking plus monitoring of internet traffic. No content filtering solution can claim it blocks 100% of the "harmful" material on the Internet, but our district is trying to provide

the safest possible computer environment through the use of technology with systemic updates and faculty supervision of your child.

We would like to encourage you to use this as an opportunity to discuss computer and Internet safety with your child. The Massachusetts Attorney General's Office has published two helpful publications on Internet Safety: *The Internet, Your Child and You: What Every Parent Should Know* and *Internet Safety: Advice from Kids Who Have Faced Danger Online*. These publications may be found online at: <http://www.ago.state.ma.us/> or you may request a copy from any administrative office.

You have the opportunity to request restricted access to the computer technologies and/or Internet for your child. To exercise this option, please notify the district technology director and your child's school principal in writing. You and your child must sign the enclosed Internet Safety & Acceptable Use Agreement before your child is allowed to utilize the computer resources provided.

Please contact your child's building Principal if you have any questions or concerns.

INTERNET SAFETY AND ACCEPTABLE USE AGREEMENT FOR THE DOUGLAS PUBLIC SCHOOL DISTRICT *Revised April 2008* File: IJNDB

III. SCHOOL COUNSELING DEPARTMENT

Counseling is a vital part of the Douglas High School educational process that first helps individual students discover their needs and abilities and then assists them in designing a specific plan of action to help them realize their full potential.

All students will meet with their counselor during their years at Douglas High School so they can be assisted in the areas of making good educational choices, career planning, social and personal growth, and crisis intervention.

The goals of the school counseling department are:

- To help students realistically appraise their capabilities, achievements, and interests.
- To develop guidance services to meet the needs of all students.
- To provide support for parents in developing the understanding and skills necessary to help their children with educational and career choices.
- To help students, parents, administrators, and teachers deal with problems within the school that may limit the student's ability to take advantage of the school’s educational opportunities.
- To assist students in strengthening their self-awareness and understanding and in seeking services they need.
- To identify a student’s personal problems and, if necessary, suggest the use of in-school and/or community agencies.
- To work cooperatively with teachers, administrators, parents, and other school personnel and to act as a liaison with non-school community agencies and organizations.
- To provide students and parents with information useful in immediate and long-term planning. The School Counseling Department also provides financial aid information for students.

A. HONOR ROLL

An honor roll is prepared after each of the four marking periods. The basic honor roll criteria require grades in all classes to be an 80 or better, based on a weighted scale (See page 34 for details). Upon meeting the stated criteria, honor levels are as follows:

- Highest Honors: 93 overall average or higher
- High Honors: 89-92 overall average
- Honors: 85-88 overall average

B. ACADEMIC ELIGIBILITY

Students must maintain certain baseline academic criteria in order to gain and/or maintain membership in a variety of extra-curricular activities, clubs, and organizations. Please review the information provided under “National Honor Society”, “School Sponsored Activities”, and “MIAA Governance” for specific requirements.

C. GRADUATION / ADVANCEMENT REQUIREMENTS

Students are required to accumulate a minimum amount of credits towards graduation. Each core course receives 5 credits. Physical Education and Health combine for 5 credits and are required in 9th and 10th grade. Juniors are required to take physical education and will receive 2.5 credits. Senior Project is a required course for graduation, receiving 1 credit and physical education for seniors receives 1 credit.

Students transferring to Douglas High School from other schools can only be awarded a maximum of 35 credits per school year completed.

The following outlines requirements and credits needed for graduation:

Students are required to complete community service as part of their graduation requirements. All community service must be approved beforehand by class advisors. If students are not up to date with their community service hours by the end of the school year, they may not be able to participate in any school related activities until their hours are completed. These school activities may include, but not limited to, dances, winter carnival, prom, and participation in senior week activities including graduation. A student may not receive their diploma until they have officially completed their mandatory Community Service hours.

15 total hours (3 hours freshman year, 3 hours sophomore year, 3 hours junior year, 6 hours senior year)

Failure of a Course: Students failing a course or courses will be responsible for making up that course. The courses should be made up in summer school or through a credit recovery program approved by the School Counseling Director. These options will be at the expense of the student. If the course is not made up in the summer the course will be put in the student's schedule for the following year. Failure to meet these requirements may result in the student not graduating with his/her class. Students must meet department requirements as well as credit requirements in order to graduate. A diploma will be granted to seniors only upon evidence of successful completion of the failed course.

Credit for Foreign Study: Students who are away for a term or year to participate in a student exchange program or otherwise study abroad, may receive credits toward high school graduation when (1) study plans are approved by the school administration in advance; and (2) the institution where the study occurred submits a record of the student's work. In these instances, the principal and student's counselor will evaluate the work and assign credit according to standards prevailing at Douglas High School.

F. DOUGLAS HIGH SCHOOL GRADING POLICY

- The passing grade at DHS is 65%
- The minimum grade for first quarter is 45%
- The minimum grade for second quarter is 45%
- The minimum grade for quarter three is 45%
- The minimum grade for fourth quarter is 0%

The rationale of this issue is a failing grade comprises 64 total points; where an A/B/C grade comprises only 10 total points and a D comprises only 5 points for these level of academic success This system may keep a failing grade at DHS from being academically destructive where the student mathematically has no chance of achieving a passing grade for the year

The goal of the policy is not reward poor academic performance, but to minimize the impact of the gradation issue and make the failing grade less destructive and a bit more constructive

The minimum grade for a student to attend summer school is a 55% - 64%, or approval from administration. If a student receives a teacher issued minimum grade in two of the first three quarters, that student may not be afforded the opportunity to attend summer school

The building administration and counselors will meet with students who are not meeting with academic success to discuss their academic status and the implication of poor performance at the end of the each of the first two academic quarters. The School Counseling Office will continue to send notices to parents after each progress report for the first three quarter grades

G. WEIGHTED POINT AVERAGE / CLASS RANK

GPA and class rank are noted on the student's official transcript. Courses will be weighted in the following manner in determining class rank:

- Level 1: Electives and College Preparatory Program = 1.00
- Level 2: Honors Program = 1.05
- Level 3: Advanced Placement Program = 1.10

H. NUMERICAL GRADE VALUE:

A+ 96-100	C 73-76
A 93-95	C- 70-72
A- 90-92	D+ 67-69
B+ 86-89	D 65-66
B 83-85	F 0-64
B- 80-82	
C+ 77-79	

Students must have attended Douglas High School for their entire junior and senior years to be eligible for Valedictorian, Salutatorian, and Student Achiever status.

I. CHANGING CLASSES

The add/drop period for classes ends with the first progress report. Any changes to a student's schedule after the first progress report require a review with a school counselor, administration, teachers, student and parent and must be due to a compelling reason for the change. Changing or dropping VHS courses will only be allowed if it meets the guidelines set forth by Global Consortium, the company that regulates Virtual High School courses. The final decision regarding schedule changes will be with the principal.

K. SUMMER SCHOOL

Students may take up to three courses at an approved summer school, if such work is to remove a deficiency for work failed. The summer school grade and the student's final grade from DHS will be averaged together and must be a 65 to receive credit. The minimum grade for a student to attend summer school is a 55%-64%. If a student receives a teacher issued minimum grade in two of the first three quarters, that student will not be afforded the opportunity to attend summer school. This will only be waived by administration in extenuating circumstances.

In order to receive credit for any course failed, the course must be made up in the summer immediately following the failure. It is recommended that any student failing English, history or math make it up in summer school immediately following the course, as scheduling them into the following school year can be difficult and cause a student to not graduate on time.

Per MIAA guidelines, summer school courses have no impact on athletic eligibility.

No credit will be given for work undertaken to improve a grade already considered passing. The course and grade will be recorded on the student's transcript.

Other requirements may be established by the school administration in relation to a particular program, otherwise the additional credits needed for graduation may be selected from elective courses.

L. FINAL EXAMS

Unless there is a documented illness, or a student has received administrative approval to accommodate missing an exam, all students are required to take their final exams at the regularly scheduled time.

SENIOR EXAMS: All seniors, unless exempt (which is determined by the classroom teacher and overall average of 92), will take final exams or complete a culminating activity in all courses.

M. ADVANCED PLACEMENT (AP) PROGRAM

The Advanced Placement Program, provided by the College Board, affords high school students the opportunity to study college-level courses. Through this program, students may earn credit, advanced placement, or both for college. In order for a student to receive AP credit on his/her final transcript, a student is required to take the AP exam. Failure to take the AP exam will result in the student receiving Honors credit, rather than AP credit, on the final transcript.

Students are responsible for the exam fee.

Colleges set their own standards in terms of waiving courses and awarding college credits. Some colleges choose not to award college credit *regardless* of the student's score on the AP exam.

N. WORK STUDY

Work Study will not be happening this year due to COVID 19 - Work study internships expose students to areas of career interest and the world of work. Students begin the school year with classroom instruction to investigate career interests and options, create professional resumes, hone interviewing skills, and become familiar with employer expectations for professional behavior and workplace responsibilities. The student will work with the Work Study Coordinator to find a work study placement that best meets his or her interests and needs. Students must obtain pre-approval from the School Counseling Department and their parents to enroll in a work study internship.

Students may not alter their schedule for any reason without permission. Failure to inform the Work Study Coordinator may result in disciplinary action.

- Students must maintain passing grades in all subjects. A failing grade, in any quarter, may automatically result in the removal of a student from the program.
- Management of discipline referrals will be the responsibility of the administration and work study coordinator. Responses may include, but are not limited to, a warning, parental notification, discipline response up to and including removal from work study.
- The student is responsible for notifying the job supervisor at the work study site in case of absence, tardiness, or other circumstances that require them not to be at the work site that day. Skipping work study is equivalent to skipping a class and will be dealt with according to the Discipline Chart and/or removal from work study.
- Students are responsible for turning in reports of weekly activities to the Work Study Coordinator weekly. Late slips will result in after school detention.
- A weekly journal describing the job assignments given and completed for that week must be kept and commented on. Journals are due to the work study coordinator weekly.
- Employers require reliable workers. Excessive absences or tardies in a quarter may result in removal from the program.

O. DIRECTED STUDY HALL

Directed Study Hall Guidelines Rationale: Our goal is that study hall time is used to the best of our ability to help increase academic performance. The whole point of having a study hall is to get work done. It is everyone's responsibility that this is able to happen. Everyone in study deserves to be able to work in a quiet environment free of distractions. Additional teacher supports can take place during this directed study time. A pass issued by a classroom teacher will be required. Collaborative academic work can also take place during this directed study time, but the collaborative academic work must comport to the expectations of the directed study hall teacher and the following policy. Academic research and the use of chromebooks will be permitted. Students must comply with the District's Acceptable Use policy while doing academic research in Directed Study.

Policy:

1. All students will be in class when the bell rings.
2. No electronic devices, except for calculators and Chromebooks are allowed!
3. Food or drinks are not allowed in the classroom per school policy.
4. Study Hall is a "QUIET ZONE" – it will be a quiet and stress free place to study. Please be respectful and considerate of those around you.
5. Each student will bring enough work with them to last the entire period. If there is no school work to be done, students should bring a book to read. Teachers may assign work if a student enters without work. You will not be allowed to just sit and do nothing and that does include sleeping!
6. Passes will not be considered until after attendance is taken.
7. Going to the library, School Counseling Office, Media Room, Physical Education, etc., requires a pass from the teacher who assigned the project you need to work on. The study hall teacher has the right to limit the number of students who leave the room to go to these locations. You are not guaranteed the ability to leave the room. Make sure you bring other work to do in case you are not allowed access to the library or other locations in the building.
8. Students will not be allowed to leave the study to get a pass from a teacher.
9. Computers in the room may be used with teacher permission. All computer work must be related to a school assignment.
10. Working in pairs or small groups will be judged on an individual basis. The teacher reserves the right to allow or disallow any request that is not in the best interest of the student or does not serve an academic purpose.

Abuse of any privilege (going to the library etc.) will result in loss of that privilege.

CAREER AND TECHNICAL COOPERATIVE EDUCATION OPPORTUNITIES

The Douglas Public Schools complies with M.G.L. 74 which mandates opportunities for students to participate in Career and Technical Education Opportunities. The Douglas Public Schools maintain a relationship with Blackstone Valley Technical Vocational Regional High School in Upton, Massachusetts for selective programs not currently offered at BVT. The Douglas Public Schools maintain a relationship with Norfolk Agricultural in Walpole, Massachusetts. Students at Douglas Middle School in grade 8 are afforded the opportunity to apply and be considered a candidate for admission to these vocational schools. Students must complete and submit a formal application by a stated deadline to these vocational schools. The admission process to these schools is solely the responsibility of the schools themselves. Acceptance or denial of acceptance is solely the responsibility of the representative of Blackstone Valley Tech or Norfolk Agricultural. These cooperative education programs provide students access to vocational learning experiences that are designed to develop those skills necessary for these vocations through real-time workplace learning environments.

WELLNESS POLICY

The Douglas Public Schools looks to meet the academic, social, physical and emotional needs of all of its students. To achieve these goals, the district consistently implements a comprehensive school wellness program within all of its schools. This wellness program includes physical education, nutrition-programs, counseling reviews and other school-based activities that are focused on promoting student wellness.

- Students may use the library during their lunch period at the discretion of the Library Media Specialist.
- Students may request items via inter-library loan from the CWMARS library system with the assistance of the Library Media Specialist. Items requested through ILL are subject to the same circulation policies as school library materials.

Reserve Materials: Learning resources, both print and non-print, will be placed on reserve by teachers at the front desk of the resource center. These materials will have direct application to specific classroom assignments. They must remain in the resource center.

Reference Material: Encyclopedias and other reference materials must remain in the resource center. It is the responsibility of the student to return an item to its proper place after use.

VI. ADMINISTRATION

A. MEDICATION POLICY

Policies have been put into place to ensure the health and safety of children needing medication during the school day. The Massachusetts Department of Health requires that the following information must be on file in the child's school health record before any medication is given at school.

Signed Medication Order- A *Permission Form for Prescribed Medications* must be completed by the child's licensed health care provider.

Signed Consent by the Parent/Guardian Found on the *Permission Form for Prescribed Medications* and on the *School Registration Form*.

The parent, or an adult designated by the parent, must deliver the medication directly to the school nurse. All medication (pills, liquids, inhalers, and over-the-counter medications) must be delivered in their original pharmacy/manufacturer-labeled container.

If your child has an inhaler for asthma or an Epi-pen for a serious allergic reaction, the school nurse can authorize the student to carry and self-administer this medication. It is important that you notify the school nurse of these conditions and that the appropriate paperwork is completed.

All students needing to take Tylenol, Advil, or other over-the-counter medications during the school day must bring in their own supply (no aspirin containing products, please) to be kept in the health office. Neither of these medications will be dispensed unless the student has his/her own supply. Parental permission must also be documented by a parental signature on the medication portion of the school emergency card). Generic substitutes are acceptable. These medications must also be brought to the nurse in their original container.

If you need more detailed information or have any questions, please contact the school nurse.

IMMUNIZATION

Students entering school for the first time, whether at kindergarten or through transfer from another school system, will be required to present a physician's certificate attesting to immunization against diphtheria, whooping cough, poliomyelitis, tetanus, measles, and such other communicable diseases as may be specified from time to time by the Department of Public Health. The only exception to these requirements will be made on receipt of a written statement from a doctor that immunization would not be in the best interests of the child; or, the student's parent or guardian stating that vaccination or immunization is contrary to the religious beliefs of the student or parent.

PHYSICAL EXAMINATION

Every student will be examined for screening in sight, hearing, BMI*, and for other physical problems as provided in the law and regulation. A record of the results will be kept by the school nurse.

Every student will be given a general physical examination four times: upon entering school and upon admittance to the fourth, seventh, and tenth grades. The results of examinations will be a basis for determining what corrective measures or modifications of school activities, if any, should be recommended. A record of all examinations and recommendations will be kept. For an inclusive view of district policy for Physical Examination, please go to the District Policy Manual and reference policy: JLCA

HEAD INJURY PREVENTION AND MANAGEMENT

The Douglas Public Schools are committed to the health and well-being of all its students including students who have suffered head injuries. As such, the district has established policies that adhere to state mandates which are strictly enforced within all of our schools. These policies are aligned with M:G.L. c.111 § 222; 105 C.M.R. 201.001. For an inclusive view of district policy for Head Injury Prevention and Management, please go to the District Policy Manual and reference policy: JJIF

B. LIFE THREATENING ALLERGIES

It is the Douglas Public School system's intention to provide a safe learning environment and well being for all children without discrimination or isolation of any child. There are several students in the Douglas Public School District with life threatening allergies. If your student has a life threatening allergy, please notify your student's Principal and school nurse immediately so that the risk of exposure can be minimized. Exposure to

the offending allergen(s) such as latex or peanuts can cause life threatening reactions in these students and require immediate medical intervention. Therefore, the Principal, in conjunction with the school nurse, will set age-appropriate guidelines that minimize the risk of exposure to offending allergens and will designate precautionary procedures regarding known allergens. It is a matter of health and safety and is mandated by School Committee Policy JLCCB. Please be cognizant of the severity of these allergies and refer to the school district's LTA policy for additional information. Douglas High School is a latex safe facility. The high school uses latex-free supplies (elastics, pencils, erasers etc.), provides a peanut-free lunch table, and provides a special cleaning solution to wipe all lunch tables down to clear any contaminants. There are also signs around the building indicating the high school is a latex-free and peanut product-free building.

HIV/AIDS

Students with HIV/AIDS have the same rights to attend classes or participate in school programs and activities as any other student. The privacy of students with HIV infection or AIDS is protected under State Privacy law (G.L. c.214, §§ 1B). The student's parents maintain this information related to their student. They are not required to disclose this information to school officials. However, a student's parent(s)/guardian(s) may inform school officials of a student's AIDS/HIV status of their own volition. If this is the case it is best if this information is directly shared with the school's administration, the student's guidance counselor and the school nurse. If the parent(s)/guardian(s) wish the student's primary care physician can provide this information directly to the school nurse or a building administrator. In order for these school officials to share this health information with other school personnel, they must receive formal consent and approval from the student's parent(s)/guardian(s). For an inclusive view of district policy for HIV/AIDS – Communicable Diseases, please go to the District Policy Manual and reference policy: JLCC

C. ATTENDANCE POLICY

DHS Attendance Policies are in accordance with Massachusetts General Law Chapter 76, sections 1 Faculty members will record all absences, tardies, or dismissals from class. As students may miss some classes more frequently than others, each faculty member will be responsible for maintaining daily attendance records. Although all absences will be kept on file, tabulation of absences will begin each semester. A written or verbal notification is required for a student's absence. A note prior to the student's absence or phone call to the school on the day of the absence is acceptable. A note or phone call does not excuse an absence; it only verifies it and indicates that the student has not been truant.

Vacations taken during school time will be counted as absences. Parents should notify the school in writing prior to any vacation. The student is responsible for any make-up work and must contact each teacher upon his/her return to school. The school does not condone or encourage vacations during school time. All work must be completed in one week or less upon return to school. Extenuating circumstances will be addressed by the administration on an individual basis. Homework assignments will not be prepared for the student prior to vacation. However, students should see their teachers regarding homework before their vacation.

For excused absences, students will have the number of days they are out plus one in which to make up work due to absence.

Excused Absences (include suspensions and absences due to a death in the family) (This is not an all-inclusive list, extenuating circumstances may apply with administration approval.)

- Doctor/dentist appointments - provided the doctor/dentist writes a note indicating when the student's appointment actually occurred. The note written by the doctor/dentist indicating the day(s) in question will be given to the assistant principal upon the student's return to school. At the end of each marking period students/parents have a 2 week period to get any notes into the office that would excuse the student's absence/s

- School sponsored activities such as field trips, college interviews, job interviews, and armed service interviews previously approved by the administration and verified by the college, employer or military, on stationery with appropriate letterhead.
- Excused absence for the observance of religious holidays.

Failure Due to Absence

Students who are absent (unexcused) from any class more than six (6) times in a quarterly marking period will be assigned an administrative grade of 50 for that marking period as a maximum grade in all subjects. Teachers may assign grades LOWER than 50 in cases involving excessive absences and/or flagrant failures to do required work. Students receiving an administrative failing grade in any of the first three quarters may recover their earned grade by having no more than one (1) unexcused absences during the quarter immediately following the quarter in which the administrative failing grade was assigned. It is the parent/student's responsibility to notify the teacher of his/her intent to recover the earned grade and have the administrative failure removed.

Appeals for Administrative Failure

Appeals for administrative failure may be made in accordance with the school's policy at levels I, II, and III:

- Level I: Parental conference with the principal or assistant principal
- Level II: Parental conference with the superintendent
- Level III: Parental conference with the school committee

D. HOMEWORK POLICY

Homework is an integral part of education for many reasons. It develops self-discipline, reinforces good study habits, and provides students opportunities to practice the material being taught. The amount of homework assigned will be determined and clearly communicated by each teacher, depending on the requirements and level of each course.

The amount of homework assigned is at the discretion of the teacher, and may vary significantly from night to night depending on the course and the type of assignment. Parents and students should review course syllabi and meet with teachers to gain a better perspective on the amount of time that should be devoted to homework. In addition to written assignments, reading, studying and reviewing are expected nightly and are considered as homework.

The student is responsible for determining assignments missed due to absenteeism and for making arrangements to complete this work. He/she will have the number of *excused days* plus one to complete class work or tests/quizzes missed *during* an absence. If a student is returning from an out-of-school suspension, he/she has only the number of days of the suspension to make up any missed schoolwork/tests.

Long-Term Assignments: If a long-term assignment (3 or more days to complete) is given, it will be due on the agreed due date. If that student is absent on the date that the assignment is due, the assignment will be due on the day the student returns to class. Extenuating circumstances, that may excuse the assignment from being completed by the due date, must be communicated to the classroom teacher by the student or the student's parent/guardian prior to the student returning to class.

Homework Free Vacations: No long term projects due on the Monday or Tuesday after a vacation. A student should not be required to use their vacation time to complete homework assignments or projects. AP courses may be exempt from this due to the demands of the course.

Homework after Extended Illness: In the event a student is absent due to an illness for an extended period of time (three or more days), a parent may call the School Counseling Office to arrange for homework assignments to be sent home. Please call the School Counseling Office prior to 10 A.M.

E. SCHOOL COUNCIL

Selection Process and Procedures: A mailing goes out to students' parents at the beginning of the school year informing them about the responsibilities and how they can become a member. The selection of school council then takes place on the first open house that Douglas High hosts.

Members of the School Council shall be subject to the provisions of sections twenty-three B and twenty-three C of Chapter thirty-nine.

The School Council shall meet regularly with the Principal of the school and shall assist in the identification of the educational needs of the students attending the school, in the review of the annual school budget, and in the formulation of a school improvement plan, as provided below.

The Principal of each school, in consultation with the School Council, established pursuant to this section, shall adopt educational goals for the schools consistent with the goals and standards including the student performance standards, adopted by the board pursuant to Section One D of Chapter 69, and consistent with any educational policies established for the district, shall assess the needs of the school in light of those goals, and shall formulate a school improvement plan to advance such goals, to address such needs and to improve student performance. The plan shall include an assessment of the impact of class size on student performance, shall consider student-to-teacher ratios and other factors - such as the support of adult resources, and may include a scheduled plan for reducing class size. The plan shall address professional development of the school's professional staff, the allocation of any professional development funds in the annual school budget, the enhancement of parental involvement in the life of the school, safety and discipline, the establishment of a welcoming school environment characterized by tolerance and respect for all groups, extracurricular activities, the development of means for meeting the diverse learning needs of as many children as possible, including children with special needs currently assigned to separate programs, within the regular educational programs at the school, and such further subjects as the Principal, in consultation with the School Council, shall consider appropriate. In school districts with language minority student populations, the professional development plan under this section shall specify how the plan will address the need for training and skills in second language acquisition and in working with culturally and linguistically diverse student populations. Each school improvement plan shall be submitted to the School Committee within thirty days of said School Committee receiving said school improvement plan, the plan shall be deemed to have been approved. Nothing contained in this section shall prevent the School Committee from granting a School Council additional authority in the area of educational policy; provided, however, that School Councils shall have no authority over matters which are subject to Chapter 150E of the General Laws. Added by St. 1993, c. 71, s.53.

DOUGLAS PARENT ADVISORY COUNCIL

The DPAC is open to all parents and focuses on Special Education. Members of the DPAC support collective efforts to improve education for children who have disabilities, and to ensure better educational outcomes for them. Information about the DPAC is sent home at the beginning of every school year.

F. PUBLICATION RELEASE

There are many opportunities for Douglas High School to display various aspects of our school community to the public through school newsletters, video productions, school web pages, etc. Some of these publications may include the photographs and/or names of students.

If you do not want your child's photograph or name to be used in any of these publications, please complete and return the *Publication Release* form (available in the packet of forms your student will receive on the first day of school) or send a letter to the Principal's office indicating your wishes. Please be sure to include your child's name and grade.

G. TARDINESS

Students are considered tardy if they report to their first period class after 7:20 a.m. Students who come to school after the start of first period must report to the office and receive a pass before reporting to class. Starting with the 4th unexcused tardy, a student may receive progressive disciplinary action, i.e. loss of driving privileges, after school detention, or in house. Management of the discipline response to tardies is at the discretion of administration.

A student who enters their 1st period class after 7:45 will be considered absent unless he/she has a verifiable excuse from the administration.

If a student is tardy due to an appointment (doctor, dentist, orthodontist, court appearance, driver's permit, etc.) he/she should bring in a note signed by the doctor, dentist, etc., to the office upon returning to school, and/or evidence of court appearance, obtaining of permit, etc. A note from a parent/guardian does not equate to an excused tardy.

If a student is to participate in an after-school function, athletics (practice or game) and/or school-sanctioned or school-sponsored activity, he/she should not be dismissed from school. Tardy students must be in school by 10:29 A.M. in order to participate in activities. Any deviation from this policy should be discussed either with the principal or assistant principal. Any student deliberately violating these standards will be subject to disciplinary action. Classes missed because of dismissal from school will count as absences.

Excessive tardiness may result in a loss of driving privileges all together. Parking Fee refunds are not available to those students who lose driving privileges due to excessive tardiness.

H. DISMISSALS

Students and parents should make every effort to avoid dismissals during the school day. All students, regardless of age, cannot sign out without one of the following:

- A note from home indicating the time and reason for dismissal, as well as a phone number where a parent may be reached. This note must be signed by the parent.
- A parent or guardian phone call.
- A parent, guardian, or designated adult person coming into the office to dismiss the student in person.

If a student has a car and will be driving him/herself, this must be indicated in the note or through the phone call with the parent/guardian. A student will not be allowed to ride with another student unless previously approved by the administration and parent/guardian.

All dismissal notes must be turned in to the office before the start of the school day. Notes must contain the parent's signature, reason for dismissal, and phone number where a parent may be reached. Students who become ill after arriving at school may be dismissed after consultation with the school nurse or administration. Any classes missed will be counted as excused absences. Students are not to call home on a cell phone to get dismissed when they are feeling ill. Rather, they are to report to the nurse who, if necessary, will call the student's parent(s) / guardian(s) to arrange for dismissal.

I. TRUANCY & UNEXCUSED ABSENCES FROM CLASSES

Unexcused absence in a class, study, or activity is a cut and is dealt with according to the discipline chart. Extended time out of class may be classified as cutting class. Truancy from school may result in a school suspension. Frequent cutting of classes and/or school days may result in suspensions and parent conferences. Skip days are strictly prohibited. Students must obtain corridor passes in order to leave classes or study halls. Students will not be able to receive credit for work missed.

J. PHYSICAL EDUCATION EXCUSE

Any student, who for health reasons must be excused from physical education class for a day or period of time must present to the teacher a note from the nurse or parent. After one day, a note should be obtained from the nurse or a doctor. Physical education is a class that students take for credit. Full participation is expected in this class on a daily basis. A change of clothing is necessary for gym class.

K. SCHOOL DAY

The building is open at 7:05 AM. During inclement weather, high school students will wait in the cafeteria.

L. CORI INFORMATION

M.G.L. c. 71, § 38R requires all schools to conduct criminal background checks on current and prospective employees and volunteers who may have direct and unmonitored contact with children, including chaperones. A CORI check must be obtained at least every three years during an individual's term of employment or service. This form is available from the school office. Because CORI forms may take several days to process, please allow sufficient time when planning to volunteer at a school event.

Information for Delayed School Openings in Douglas

A delayed opening would indicate that morning childcare services that are offered by Blackstone Valley Children's Place at the Primary School will follow the same time delay for these services.

Student drop off supervision would also follow these time delays; students cannot be dropped at school at normal start time while in a delayed opening as there will be no supervisions available at our schools.

If the district has a 1 or 2 hour delay; all A.M. Pre-K classes will be canceled for the day.

1 HOUR DELAY – All schools will start their day 1 hour after the regularly scheduled start time (i.e. 7:20 will be 8:20). Information on Early Release Days in Douglas

During the school year; there will be instances where our schools will follow an early release schedule. An early release schedule will follow the regular scheduled start times; however; schools will be in session for only 3 ½ hours with school dismissals being 3 hours in advance of usual end times (i.e. 10:52 instead of 1:52). All schools will follow a modified day schedule as a result of the early release day being observed in our schools.

No student under 18 shall be released on his/her own recognizance. See Code of Conduct.

V. ILLNESS IN SCHOOL

Students who are ill should report to the nurse after obtaining a medical pass from their teacher. If the nurse is not available, students should report to the principal's office. Students are not to call home on a cell phone to get dismissed. They are to report to the nurse, and the nurse – if she deems it to be necessary – will call the student's parent(s)/guardian(s) to recommend that the student be dismissed.

W. EMERGENCY PROCEDURES

FIRE DRILLS

The law requires that fire drills be held at regular intervals, since they are an important safety precaution. It is essential that when the fire alarm sounds, students and staff leave the building as quickly as possible by the

prescribed route. Corridor exits are clearly marked. Students and teachers are to remain at their designated areas outside until the signal is given to re-enter the school by the principal or assistant principal.

OPTIONS BASED LOCKDOWN PROTOCOL (Alert Lockdown Inform Counter Evacuate)

If you hear announced that; “We are now in an internal lockdown”

- If you are in the bathroom or out of your classroom you need to quickly get into the nearest classroom or office.
 - Students should power down their cell phones, they absolutely must turn to vibrate.
 - Teachers & students should barricade their doors
 - Get to the area of the classroom that the classroom teacher has designated as a “safe area”.
 - Remain as quiet as possible.
 - Follow the directions of the classroom teacher to ensure everyone’s safety.
 - Support each other.
 - Do not open the door at any time; the First Responders will have a key to open the door.
 - You must ignore the FIRE DRILL warning if it occurs AFTER we have gone into lockdown.
 - Remain within the classroom, UNLESS the teacher makes the decision to evacuate, BASED, on the information given over the PA system
 - If you open the door and leave the classroom, your hands should be up in the air. This signifies to First Responders that you are not the possible threat.
 - If the intruder gains access to the classroom, be prepared to counter him/her and SWARM the individual.
 - If you hear, “We are All Clear – Stay in Place” this means that the threat is over but we are still in a mode of being as quiet as we can be and our movement within the room should also be limited as we wait for First Responders to come to open the classroom and provide further instructions as to what is the next course of action.
 - The classroom teachers will need to take attendance and identify anyone not in the classroom so First Responders & Administration can locate them during the process of opening rooms.
 - The classroom teacher will also need to generate a list of student names who are in the classroom but are not assigned to that room.
 - Even if you hear movement in the halls you still do not open the door at any time, the First Responders will have a key to open the door.
 - If we are instructed by First Responders that there is a need to evacuate the building and the process is going to take place by specific sections within the building, we will follow their instructions and go where we are instructed to go.
 - This could occur without having heard the announcement that “We are All Clear – Stay in Place”
 - We follow the instruction of the First Responders, and attendance must be taken at this new location so students will need to be grouped with their classroom teacher so we can account for everyone.
- NO ONE WILL BE RELEASED UNTIL THE SCHOOL AND THE POLICE CAN ACCOUNT FOR ALL STUDENTS, STAFF, FACULTY AND ADMINISTRATORS**
- We are under the direction of the First Responders from the time they arrive on site until the event is done.
 - If we are going to a re-unification location for students to be reunited with their families, we will follow the directions of the First Responders and we will again need to confirm student attendance before students are released to their families.
 - Anytime we are in a lockdown this will always be the case. Students will not be released to parents until we have confirmed both attendance and that we have confirmed their formal release to their parents by their classroom teachers and administration/guidance and office staff.
- Internal Lockdown procedure for some Common Areas
- The café during lunch has as many as 100-150 students in there at one time. We will need to exit the cafe as quickly and as orderly as we can.
 - The row closest to the entrance of the café from the foyer will go directly to Mr. Gionet’s classroom.

- ❑ The students seated in the middle four rows will go directly into the kitchen itself through the nearest open door. These will need to be locked by staff or administration.
- ❑ The row closest to the gym will need to exit the café and head to the locker rooms.
- ❑ An additional component of this is that when students are released from these locations they will need to return back into the cafeteria so attendance can be taken.
- ❑ The teachers of the classes who were at lunch will report to the cafeteria and complete an attendance check to ensure that all students are accounted for.
- ❑ The Gym –Students in the gym will go directly to the locker rooms and the doors will be locked by staff.
- ❑ The Library – the library will need to get students into the Audio-Visual room within the library.
- ❑ The Auditorium – everyone will remain in the Auditorium.
- ❑ Senior Lunch all students will need to re-enter the building as instructed by the teachers/administrators on duty and they will move directly to Mr. Gionet’s room.

EXTERNAL LOCKDOWN

An “External Lockdown” will be issued if there is a threat that exists outside of the school grounds, but will cause the school to take the following responses.

- The school will continue to function as it normally does.
- Administration and office staff will maintain contact with the Douglas Police & Fire Departments as well as the State Police relative to the safety risk.
- Classes will continue to be instructed and students will follow their class schedule.
- Students will not be released from school during an External Lockdown until administration has received confirmation from safety officials that it is safe to dismiss students.
- Administration will endeavor to keep all students and staff informed about the threat and the status of the schools safety. External Lockdown - Shelter-In –Place An “External Lockdown-Shelter-In-Place” would indicate that the threat is not on school grounds but safety officials are concerned that the school may be at risk. The school will take the following steps during an “External Lockdown-Shelter-In-Place”.
- Students will remain in their present class.
- Students in the Halls or bathroom will need to return to their assigned classes.
- Faculty will need to ensure accurate attendance and contact the Main Office if a student(s) are missing from their classroom.
- Classes can continue, however students must remain in the classroom.
- There should be no one in the halls or moving about outside of the classroom.
- If the class period ends all students and staff will remain in the classroom until notified by the Main Office that we are “All Clear”.
- The administration and Main Office staff will be in continuous contact with local police on the status of the threat and will endeavor to keep students and staff as up to date as possible.
- Upon an “All Clear”, school will resume as scheduled.
- If the threat escalates and the school is seen as being at risk we would then move to an “external Lockdown”.
- If the police feel that the school is unsafe and needs to be evacuated, we will follow the procedures in place for an evacuation.

WEATHER ADVISORY

- The weather emergency procedure will be followed as such:
- All students are to vacate their classroom and follow the evacuation to their designated “safe areas” contained in the school’s weather emergency plan as instructed by their classroom teachers.
- Students are to remain with their group and teacher.
- All teachers will have to remain with their group
- Please remain in place until an “all clear” signal has been issued by an administrator or a crisis team member.
- Office staff will report to their secured area with all attendance and dismissal records.

X. VIOLATION OF SCHOOL RULES AT OR NEAR GRADUATION

Any violation of school rules (especially alcohol and drugs) prior to the graduation ceremony will be penalized in accordance with school rules. If any suspension falls during senior activities, the student may lose the privilege to participate in those activities, including graduation.

Y. STUDENT CONDUCT

Disrespectful attitude or language to teachers and students may result in the assigning of office detentions or suspension from school, as determined by the administration. Students are required to act courteously and respectfully during assemblies. Failure to do so may meet with removal from the assembly and disciplinary measures.

Cafeteria Conduct: The following rules are in effect for the cafeteria:

- All food is to be eaten at the tables.
- Line cutting is not permissible.
- Each student is responsible for removing his/her tray and debris from the table as well as the floor around them. Tables should be left clean for other students.
- Students violating these rules may be asked to sit in an assigned seat, lose cafeteria privileges, or receive disciplinary response.

Classroom Conduct: The primary function of Douglas High School is to provide students with an excellent education. This can only take place in a well-structured, well-disciplined classroom setting. Students share equal responsibility with teachers and administrators for maintaining a good classroom atmosphere. Classroom disruptions on the part of any individual or group of individuals will not be tolerated. Study halls are considered to be classrooms, and rules of conduct apply there as well.

Corridor Conduct: Students are not to linger in the corridors before, between, or during classes. If it is necessary that a student be in the corridors during classes, he/she must have a corridor pass signed by the teacher who issued the pass.

Bus Conduct: All bus students will be dropped off in the parking lot to the right when entering school grounds. Students in grades 9 -12 will enter through the main entrance and proceed to their classrooms. Buses will pick students up at the same place. During inclement weather, high school students will wait in the cafeteria.

To ensure the safety of all passengers, conduct on the bus should be the same as appropriate classroom conduct and the driver should receive the same respect and courtesy due a teacher. Pupils reported for misconduct will be dealt with as follows: For an inclusive view of district's policies for transportation please go to the District Policy Manual and reference policies: EEA, EEAA & EEAE.

Students may only ride on the bus they are assigned to.

Loading and Unloading Riders must be on time; the bus will not wait. Riders must enter or leave the bus at regular stops only. Riders must behave in an orderly manner and show respect for private property. Riders must follow the instructions of the driver when entering or leaving the bus. Required Conduct Aboard the Bus Riders must remain seated when the bus is in motion. Whistling, shouting, and singing are not permitted. Smoking is prohibited. The following disturbances are prohibited:

- Pushing or wrestling

- Annoying other passengers in any manner
- Talking to the driver in an annoying manner
- Throwing objects in the bus or out of windows
- Climbing over seats
- Opening or closing windows unnecessarily
- Leaning out of windows (keep hands and arms inside the bus at all times)
- Littering on the bus
- Consumption of food/Chewing gum
- Loud music
- Graffiti Students will be held responsible for any defacing or damaging of the bus.

First infraction – Parent(s) will be contacted. Discipline may result in temporary loss of bus privileges. Second infraction - Temporary loss of bus privileges. Third infraction - Loss of bus privileges for a determined period of time. Administration reserves the right to determine the length of time of a suspension and/or revoking bus privileges resulting from any bus infractions.

Z. STUDENT BREAKFAST AND LUNCH

Students may purchase breakfast before school begins for \$1.50. Student lunches are available for \$3.25. 8oz milks are available for \$0.65. ***Please note: Lunch deliveries from local restaurants are prohibited.

VII. DRIVING AND PARKING REGULATIONS

Permission for students to drive a vehicle to Douglas High School is conditional upon the complete adherence to school rules and regulations. A student's parking privileges may be revoked if the administration determines that a student has violated the rules and regulations of Douglas High School. In addition, a student's parking privileges may be revoked if the administration determines that a student has violated state, local, or town laws or ordinances on school property. Any member of the Douglas School District administration may revoke a parking permit.

There will be no expectation of privacy relative to vehicles parked on school property.

All drivers are subject to the laws of the State of Massachusetts Department of Motor Vehicle Registry. Violators of State law may be reported to the local authorities.

The following rules and regulations pertain specifically to those students wishing to drive motor vehicles to school:

- All students using a vehicle as transportation to school must register that vehicle with the administration and obtain a parking permit, which there is no charge for. All student drivers must display a parking permit from their rearview mirror. Only students with a parking permit from Douglas High School will be allowed to park in the student lot.
- All vehicles must have a valid state registration and inspection sticker.
- Student vehicles may be subject to search by the administration if reasonable grounds exist to believe that drugs, alcohol, stolen property, or other contraband might be present in the vehicle. While parents will be notified of the intent to search, the search may take place without their presence.
- Administration and faculty will provide supervision to manage traffic flow, but are not liable for accidents or property damage.
- No vehicle shall enter the path of a school bus entering or leaving school. School buses have the right of way at all times on school property. Student must oblige to the directives of the staff on duty during the dismissal process.
- Student drivers must yield to pedestrians.

- Student drivers must drive in a mature and responsible manner. Students are prohibited from speeding, driving recklessly, racing engines, squealing tires, and driving around the school. Students are prohibited from using the fire lane behind the school.
- Student drivers must park only in the lot directly in front of the school and enter the building by the main / front entrance doors.
- While vehicles are on school grounds, stickers and signs on vehicles that bear offensive, vulgar or obscene words or pictures will not be tolerated if such expressions cause disruption or disorder within the school environment. The student will be asked to remove the sticker or signs. Failure to remove the stickers or signs or subsequent occurrences may be subject to disciplinary action or the loss of parking privileges on school grounds.
- While vehicles are on school grounds, stickers or signs on vehicles that promote the use of illegal or controlled substances will not be tolerated. Failure to remove stickers or signs or subsequent offenses will be subject to disciplinary action as well as revocation of student parking privileges on school grounds.
- Students are not permitted to loiter in the school parking lot at any time. Students are to exit their vehicles and enter the school promptly upon arrival.
- The entire parking lot and student vehicles in particular are off limits during school hours (or from the time the student arrives to the time the student leaves school) unless the administration grants permission.
- Douglas High School and the Douglas Public School District are not responsible for student vehicles or their contents.
- According to Massachusetts law, all students must wear their seatbelts.
- Douglas High School reserves the right to tow vehicles at the owner's expense.

Any violations of the above regulations may be subject to disciplinary action, including the temporary or permanent revocation of a student's motor vehicle privileges.

VIII. DRESS CODE

Students should dress appropriately at all times. The Douglas High School dress code is based on principles of safety, hygiene, and generally accepted standards of propriety. Consistent with the school district's sexual harassment and anti-discrimination policies, the dress code was developed to protect the welfare of all students while they are attending school.

Unacceptable dress/attire is any clothing that is deemed provocative and disrupts the learning environment.

Banned attire includes the following:

- Clothing that implies or denotes inappropriate messages, including but not limited to alcohol, smoking, vaping, sex, violence, foul language or that are intentionally offensive toward gender, sexual orientation, religion, race, physical, or intellectual ability.
- Clothing that facilitates vaping.
- Hats of any type, visors, hoods, sunglasses, or bandanas
- Excessive torn/holey pants
- Backless shirts
- Blankets
- Oversized purses (All purses must be 8 x 10 or smaller)

Footwear must be worn at all times; it is recommended that students not wear shower sandals and/or flip-flops.

The bottom of shirts should meet the top of pants in order to not show bare midriffs or undergarments. Bare midriffs are not allowed. Tank tops may be worn only with a T-shirt underneath.

Any clothing or personal item that, in the judgment of the administration, interferes with or disrupts the educational process will not be allowed. On the first occurrence of a violation the student will be asked to change his/her clothes. If a change of clothing is not available at school, a parent will be called to bring in clothes. Refusal to change, or subsequent occurrences, may be considered insubordination and subject to disciplinary action. If a student is unable to obtain appropriate clothing that student will not be able to attend class. They will remain in the office or the in-house detention room.

The dress code applies to all physical education classes. If the attire does meet the dress code, determined by the teacher, the student will be asked to change into something appropriate or they will receive a zero for the class.

The dress code applies to all athletes on game day. Athletes may wear their uniform if it complies with dress code.

IX. SOCIAL

A. SCHOOL SPONSORED ACTIVITIES

All school rules apply at any school-sponsored student activity - whether on or off campus – for the duration of the activity. Penalties are outlined in the discipline chart. Dances at the Municipal Center are not school sponsored. If administration is not present then the school personnel/chaperones in charge of any and all school sponsored activities/trips have the right to search students' backpacks and/or luggage.

Student fundraising associated with a student's senior project or individual interest group is not a fundraising activity of the Douglas Public Schools.

B. PARTICIPATION IN ACTIVITIES AFTER ABSENCE OR DURING SUSPENSION

Students will not be allowed to participate in or be in attendance at an extracurricular event on the same day they are absent from school unless the absence has been excused in advance by the principal or assistant principal. This applies particularly to dances and athletic events. Students who have been suspended from school are required to stay off school grounds until they are allowed by the principal or assistant principal to return. Students who are absent unexcused on Friday may not be eligible to participate in any school related activities over the weekend.

C. ELIGIBILITY FOR ACTIVITIES, CLUBS, AND NON-ATHLETIC SCHOOL ORGANIZATIONS

- Please refer to page 53 for information regarding athletic eligibility.
- If a student fails two or more courses during any marking period, he or she will not be allowed to participate in extracurricular field trips during the school day.
- Students may regain their eligibility to participate in extracurricular field trips during the school day (i.e. failing no more than one course) when a following quarterly progress report is issued. A current progress report will be used to determine eligibility.
- Students will not be allowed to participate in field trips of any kind if they have been given an excessive number of classroom or office detentions, if they habitually fail to serve their detentions, if they continually cause classroom disturbances, or if they have been suspended an excessive number of times. These infractions will jeopardize a student to participate in special class events, such as the Jr./Sr. Prom and senior week activities, he/she should be a member in good standing in the class. This includes being up to date with class dues, community service requirements as well as have the potential to meet the minimum credits needed for their class standing. (Good standing would be determined by the administration.)

D. SCHOOL DANCES

No eighth grade students are permitted to attend high school dances/proms. High school students are not permitted to attend dances/activities planned for younger students (unless acting as D.J.).

If anyone is absent from school during the day of a dance (other than an absence approved by the administration), he/she may not attend the dance in the evening.

There are no early dismissals for school dances except for Prom Night. The school day will be an activity day allowing dismissal for Prom Night to be no earlier than 11:31am.

It is mandated for all dances that the student, parent and guest sign the DHS Dance Contract. This document encompasses what is appropriate attire and behavior. The contract will be available prior to any dance from a class or club advisor or in the main office.

School dances are not open to the public. School IDs or faculty recognition is mandatory. School dances are intended for students in grades 9-12 enrolled at Douglas High School only, with the exception of special dances such as the Homecoming, Snow Ball, and Jr.-Sr. Prom, when guests may be invited. Invited guests must submit an approved guest verification form and register in the office or with the class advisor before the dance. Guests must be enrolled in high school (grades 9-12) and in good standing to attend. Guests who are no longer enrolled in high school may not attend unless they have obtained special written permission from the DHS administration.

Absolutely no guests 20 years of age or older will be permitted to attend any Douglas High School sponsored dances. The exception is the Jr. and Sr. Prom: Absolutely no guests 21 years of age or older will be permitted to attend.

Students will not be allowed entrance into the dance after the first hour unless prior permission has been granted. No student will be allowed to leave a school dance before one hour of its scheduled end times. The exception to this is through parental approval given to administration or faculty supervisor. If anyone leaves the building at any time without permission of the person in charge, he/she must leave the premises and will not be allowed to return.

The band or D.J. selection must receive prior approval of an administrator.

There will be no slam-dancing, moshing, and provocative/hip hop style of grinding, sexually suggestive dancing, or other dancing that could be considered by the chaperones as having the potential to cause an injury or acting in a socially provocative manner. Students who do not cooperate with this rule will be sent home, their parents will be notified, and their eligibility to attend future dances may be suspended. Students are not allowed in the academic or administrative areas during any dance.

Possession or consumption of alcohol or drugs at any school activity—either on or off of school property—is a violation of Massachusetts State Law and the DHS drug/alcohol policy. Students under the influence at any school activity—either on or off school property—are in violation of the DHS drug/alcohol policy.

F. CLASS DUES

Class dues may be paid weekly, monthly, or annually. Dues are \$40 per year. The purpose of class dues is to help offset the cost of class activities such as prom and graduation. If students are not up to date with their class dues by the end of the school year, they may not be able to participate in any school related activities until their dues are paid. These school activities may include, but not limited to, dances, winter carnival, and prom. If paying dues creates a financial hardship to a family, they may schedule a meeting with an administrator to present their concerns. If a student does not complete their class dues obligations, they will not be able to participate in any Senior Week activities, including graduation. They will not receive their graduation cap, gown, and stole.

G. FIELD TRIPS

From time to time, students will be afforded the opportunity to attend school-sponsored field trips as part of their educational experience. Teachers notify parents / guardians of all details relating to a field trip and obtain parental / guardian consent beforehand. Students will not be permitted to attend any field trips without written consent from their parents / guardians. In some cases, parents / students may be required to sign a release of liability agreement before students may attend particular field trips. The teacher must ensure that the destination of the field trip is accessible for students with disabilities. Under Federal law Section 504 of the Rehabilitation Act of 1973 (Section 504), Title II of the ADA, and the Individuals with Disabilities Education Act (IDEA), as well as state laws and regulations, require school districts to provide students with disabilities equal access to programs, services, activities, and facilities. For an inclusive view of district policy for Field Trips, please go to the District Policy Manual and reference policy: IJOA & IJOA-1

X. ATHLETICS

A. ATHLETIC PROGRAM

Girls: Soccer, Volleyball, Basketball, and Softball

Boys: Soccer, Basketball, Baseball, Volleyball (*presently not offered*)

Co-Ed: Field Hockey (*Co-op with BMR*) Cross-Country, Golf, Track and Field, Football (*Co-op with Sutton High School*), Hockey (*Co-op with Hopedale/ Auburn*), Cheerleading, Swim & Dive (*Co-op with Grafton*)

The athletic program is part of the educational structure at Douglas High School. Each student has the opportunity to participate but also has the obligation to fulfill certain requirements. These requirements are not intended to discriminate against any students, but rather are necessary to protect the school, the athletic program and, most important, foster the development of responsible, educated adults. The cut-off date for students joining a team will be one week after the start of practice unless having been cut from another sports program. The cut-off for fall sports will be one week after the start of school.

Participation in Weekend School Events: If students are externally suspended on the Friday prior to the weekend they are not eligible to participate in any school sponsored events.

B. MIAA GOVERNANCE

Douglas High School abides by all rules which are in the current MIAA (Massachusetts Interscholastic Athletic Association) Handbook of Regulations (“Blue Book”). Please make special note of the following:

Age Limits A student shall be under 19 years of age, but may compete during the remainder of the school year, provided that his/her 19th birthday occurs on or after September 1 of that year. For freshman competition, a student shall be under 16 years of age but may compete during the remainder of the school year provided that the sixteenth

birthday occurs on or after September 1st of that year. Principals must exercise great care in determining the age of contestants, and in all doubtful cases, must secure birth certificates from the town clerk of the pupil's place of birth.

Academic Requirements: To maintain academic eligibility for any middle level, junior varsity, or varsity athletic team, a student may fail no more than one course, either major or minor. Eligibility is determined by quarterly report cards. Progress reports and summer school courses have no effect on athletic eligibility. Academic eligibility shall be official on the date report cards for the previous term has been issued; i.e., eligibility for the second quarter is determined the day first quarter report cards are issued.

The fourth term report card shall be used to determine eligibility for the following fall sports season. Summer school grades have no impact on athletic eligibility. Incomplete grades may not count towards eligibility for the following fall sports season.

For students who become ineligible due to their second term report cards, the third term progress report may be used to determine *tentative eligibility* for spring season tryouts. The athletic director must certify tentative eligibility before any participation. Students with tentative eligibility may try out and practice for spring teams but may not participate in any athletic contest until they regain full eligibility on their third term report card.

A student cannot, at any time, participate in athletics unless he or she is taking courses that would provide credit equivalent to four 1-year major courses. A student who repeats a course for which he or she received previous credit cannot count that subject a second time for eligibility.

Previous reference to special education students with 502.4 prototypes is rendered valueless, given current special education law. Academically ineligible special education students may not participate unless a waiver has been requested and granted by the MIAA.

D. CHEMICAL HEALTH

From the earliest fall practice date to the conclusion of the academic year or final athletic event (whichever is latest), a student shall not, regardless of the quantity, use, consume, possess, buy/sell, or give away any beverage containing alcohol; any tobacco product; marijuana; steroids; or any controlled substance. This policy includes products such as "NA" or "near beer". It is not a violation for a student to be in possession of a legally defined drug specifically prescribed for the student's own use by his/her doctor. This MIAA statewide minimum standard is not intended to render "guilt by association", e.g. many student athletes might be present at a party where only a few violate this standard. This rule represents only a minimum standard upon which schools may develop more stringent requirements. If a student in violation of this rule is unable to participate in interscholastic sports due to injury or academics, the penalty will not take effect until that student is able to participate again.

The minimum penalties are:

First violation: When the Principal confirms, following an opportunity for the student to be heard, that a violation occurred, the student shall lose eligibility for the next consecutive interscholastic contests totaling 25% of all interscholastic contests in that sport. No exception is permitted for a student who becomes a participant in a treatment program. It is recommended that the student be allowed to remain at practice for the purpose of rehabilitation. Fractional portions of contests will be dropped when calculating 25% of the season. Second and subsequent violations: When the Principal confirms, following an opportunity for the student to be heard, that a violation occurred, the student shall lose eligibility for the next consecutive interscholastic contests totaling 60% of all interscholastic contests in that sport. Fractional portions of contests will be dropped when calculating 60% of the season. If after the second or subsequent violations the student of his/her own volition becomes a participant in an approved chemical dependency program or treatment program, the student may be certified for reinstatement in MIAA activities after a minimum of 40% of events provided the student was fully engaged in the program throughout that penalty period. The high school Principal, in collaboration with a Chemical Dependency Program or Treatment Program, must certify that the student is attending or issue a certificate of completion. If a student does not complete the program, his/her penalty reverts back to 60% of the season. Fractional portions of contests will be dropped when

calculating 40% of the season. Penalties shall be cumulative each academic year, but serving the penalty could carry over for one year. Or, if the penalty period is not completed during the season of violation, the penalty shall carry over to the student's next season of actual participation, which may affect the eligibility status of the student during the next academic year. (e.g. A student plays only football: he violates the rule in winter and/or the spring of the same academic year: he would serve the penalty [ies] during the fall season of the next academic year).

E. STEROID USE

Anabolic androgenic steroid use at the high school level is of grave concern. Steroids are used by some athletes, and the seriousness of the problem has been well documented. A recent study indicates that over 3% of high school seniors have tried steroids in their lifetime (NIDA, 2004). Steroids can, with proper diet and weight training, increase muscle development; however, as is typical with most "get-rich-quick" schemes, steroid use has serious short and long term consequences. Normal and equal musculature development can occur without steroid use. Although the natural process takes longer, muscle tone will last longer and does not carry the harmful side effects of steroids. The issue goes beyond protecting the integrity of sport. The use of steroids in sports is cheating. We must oppose the use of steroids for both health and ethical reasons.

F. ATHLETIC REGULATIONS

Athletes who arrive at school tardy unexcused after 10:23 on a regular day schedule or 10:36 on an activity day schedule, are not eligible to participate for that day. Athletes must be in school, and on time, the day following a competition.

Athletes must ride to and from events on the team bus (unless they have a note signed by an administrator allowing them to ride home with their parents), follow bus regulations, and dress according to the policy dictated by the respective coach.

Athletes must abide by Douglas High School's rules of behavior as well as the athletic regulations. A student athlete may be suspended or dismissed, resulting in the loss of any individual or team awards for failure to follow these guidelines.

Athletes are responsible for any equipment or uniforms issued to them. They will have to pay the cost of any article not returned at the end of the season.

The following offenses will be dealt with according to team rules or DHS Rules & Regulations:

- Missing or being late for practices or games without prior notification to the coach.
- Disrespect toward a coach or game official.
- Any other actions unbecoming a Douglas High School student/athlete that are not covered by the rules of behavior or athletic regulations. All students are required to have the following before participating in the Douglas High School Athletic Program. All forms for participation can be found in the high school office.
- Academic eligibility
- Parental / guardian's permission to participate (program participation form)
- A physical exam fewer than thirteen (13) months old on record with the school nurse
- A parental consent / release from liability and indemnity agreement form
- A signed acknowledgement of the MIAA's state-wide chemical health policy
- An athletic user fee of \$200. Please make checks payable to *Town of Douglas*.
- School insurance or some other insurance plan

SPORTS RELATED HEAD INJURY

The Douglas Public Schools, in compliance with 105 CMR 201, have policies and procedures governing the prevention and management of sports-related head injuries occurring in extra-curricular activities and athletic activities and are applied to all head injuries in students. For an inclusive view of district policy for Head Injury & Concussion Policy, please go to the District Policy Manual and reference policies: JJIF & JJIFR.

G. ATHLETIC USER FEE

Fees will be collected by an athletic department representative and deposited in an athletic fund to be used solely by the athletic department. Fees must be paid in full prior to the first practice of the season. Please make checks payable to 'Town of Douglas'.

The fee for all levels of each sport offered during the 2020-2021 school year is \$200 per student per sport with NO CAP (unless adjusted by School Committee). Parents may apply to the High School Principal or Athletic Director for a waiver of these fees if they believe financial hardship will prevent their student from participating. Waivers will be considered confidentially and on a case by case basis. Any player who fails to make a team will receive full refund. Any player who is removed from a team for disciplinary or academic reasons or who voluntarily leaves a team after making the roster *is not entitled to a refund*.

Paying a user fee in no way guarantees playing time. Every effort will be made to play junior varsity and middle school team members as frequently as possible. No guarantee will be made to ensure playing time on the varsity level in any sport.

XI. DISCIPLINE

A. AFTER SCHOOL DETENTION

After-school detentions will be handled by teachers at their discretion. Teachers will keep records of after-school detentions they have assigned. Office detentions are assigned by the administration and are 45 minutes in length. The Assistant Principal keeps records of detentions. If a student is absent on the day of an assigned detention, he/she is expected to serve detention the next day in attendance. Teachers will be free to administer their own detentions even if the office has assigned a detention for the same offense.

B. SUSPENSION

I. Suspensions of Ten Days or Fewer Suspension may be imposed in cases of serious misconduct or repeated offenses of less serious misconduct. Unless emergency circumstances dictate otherwise, the following procedure may be followed for suspensions of ten days or fewer.

The student will meet with the assistant principal (or in the absence of the assistant principal, with the principal or his/her designee). At that meeting, the student will be told the nature of the charges, and have an opportunity to respond. The assistant principal will make a decision based upon information presented by the student, further investigation if required, and evidence already known to the assistant principal. If the assistant principal determines that a suspension is warranted, he/she will notify the student of the duration of the suspension, and, if the student previously denied the charges, the assistant principal will supply an explanation of the basis of his/her finding.

The school will make every effort to notify parents of the suspension by telephone immediately, and will, in all cases, notify the parents in writing. A student returning from suspension must be accompanied by a parent or guardian, and must meet with the assistant principal or principal prior to re-admission to school.

In most cases, suspensions will be based upon the discipline chart. However, the assistant principal retains discretion to impose a suspension of a different length (longer or shorter), or some other penalty based upon the circumstances of the case.

In all cases, once a student has been assigned to suspension, he/she will not be allowed to take part in or attend any school-related function or activity. This remains in effect until the student has officially returned to school from suspension.

Suspension days will be counted as excused absences. Students who are suspended will be given the number of days they are out to make up the work.

II. Suspensions in Excess of Ten Days

For cases involving suspensions in excess of ten days or indefinite suspensions based upon the issuance of a felony criminal complaint, the following procedure will be followed:

The principal will notify the student in writing of the reasons for a suspension in excess of ten days.

The student will be allowed an informal hearing, as set forth in Section I. for “Suspensions of Ten Days or Fewer,” prior to the suspension taking effect except where circumstances make it necessary to impose the suspension prior to such a hearing. (Such circumstances may include, but are not limited to, incarceration of student, refusal of student to attend the hearing, or where the student poses an unreasonable danger to the welfare of the school). In cases involving a felony criminal complaint, the principal may decide to take action without a hearing.

The principal will issue a prompt written decision setting forth findings on whether the student committed an offense and if so, the penalty awarded. Suspensions will be of a definite duration, except when based upon a pending felony criminal complaint.

The student may appeal the suspension to the superintendent by forwarding a written request for an appeal to the superintendent within five days of the effective date of the suspension. In the event of an appeal, the student may request a hearing, at which the student will have the right to present evidence and be represented by counsel. The superintendent will issue a decision within five days of the hearing.

C. EXPULSION

A student may be expelled for unusually serious offenses where the principal determines that the continued presence of the student in school would be detrimental to the welfare of the students, teachers, and administrators in the school.

Massachusetts General Law, c.71, §37H provides for expulsion of students under the following circumstances and after the following procedure:

A. Any student who is found on school premises or at school-sponsored or school related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun or knife; or a controlled substance as defined in chapter 94 C, including, but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.

B. Any student who assaults a principal, assistant principal, teacher, teacher’s aide, student or other educational staff on school premises or at school-sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the principal.

Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing at which the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal. After said hearing, a principal may, at his/her discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b), provided however, that any principal who decides that said student should be suspended shall state in writing to the school committee his reasons for choosing the suspension instead of the expulsion as the most appropriate remedy. In this statement, the Principal shall represent that, in his opinion, the continued presence of this student in the school will not pose a threat to the safety, security and welfare of the other students and staff in the school.

Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have 10 days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual definition of whether the student has violated any provisions of this section. When a student is expelled under the provisions of this section, no school or school district within the Commonwealth shall be required to admit such student or to provide educational services to said student. If the student does apply for admission to another school or school district, the principal of the school district to which the application is made may request and shall receive from the Superintendent of the school expelling said student a written statement of the reasons for said exclusion.

Expulsions for other reasons, such as conviction of a felony, where the principal determines that the continued presence of the student will have a detrimental effect on the general welfare of the school; cases involving violent

conduct; and other cases where expulsion is set forth as a possible remedy under another policy in this handbook, will be handled in accordance with the same procedure set forth above.

A suspension may be extended beyond ten days, during the pendency of an expulsion, by following the hearing procedures above, provided the hearing date set by the written notice of charges is before the expiration of the original suspension or immediately thereafter. If the hearing is postponed upon the request or agreement of the student's parents or attorney, the suspension shall continue, pending the outcome of the hearing, unless the principal or superintendent determines otherwise.

BULLYING PREVENTION POLICY

The Douglas Public Schools is committed to providing a safe, positive and productive educational environment where students can achieve the highest academic standards. No student shall be subjected to harassment, intimidation, bullying, or cyber-bullying.

M.G.L.c. 71, Section 370, the Bullying Prevention and Intervention Act.

Under the amended Act, Bullying is defined as follows: "the repeated use by one or more students or by a member of a school staff including, but not limited to, an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional of a written verbal or electronic expression or a physical act or gesture or any combination thereof, directed at a victim that: (i) causes physical or emotional harm to the victim or damage to the victim's property; (ii) places the victim in reasonable fear of harm to himself or herself or damage to his property; (iii) creates a hostile environment at school for the victim, (iv) infringes on the rights of the victim at school; or (v) materially and substantially disrupts the education process or the orderly operation of the school. For the purposes of this section bullying shall include cyber-bullying." (*Emphasis added*). "Cyber-bullying" means bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a:

- Wire
- Radio
- Electromagnetic
- Photo-electronic or photo-optical system, including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications.

Cyber-bullying shall also include the creation of a web page or blog in which the creator assumes the identity of another person or knowingly impersonates another person as author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying.

Cyber-bullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

The target shall, however, not be subject to discipline for failing to report bullying.

Any student who knowingly makes a false accusation of bullying shall be subject to disciplinary action.

Parents or guardians, or members of the community, are encouraged to report an incident of bullying as soon as possible.

A member of a school staff shall immediately report any instance of bullying the staff member has witnessed or become aware of to the school principal or their designee.

Support staff shall assess an alleged target's needs for protection and create and implement a safety plan that shall restore a sense of safety for that student.

Confidentiality shall be used to protect a person who reports bullying, provides information during an investigation of bullying, or is witness to or has reliable information about an act of bullying.

If the school principal or a designee determines that bullying has occurred he/she shall take appropriate disciplinary action and if it is believed that criminal charges may be pursued against the perpetrator, the principal shall consult with the school's resource officer and the Superintendent to determine if criminal charges are warranted. If it is determined that criminal charges are warranted, the local law enforcement agency shall be notified.

The investigation shall be completed within fourteen school days from the date of the report. The parents or guardians shall be contacted upon completion of the investigation and informed of the results, including whether the allegations were found to be factual, whether a violation of this policy was found, and whether disciplinary action has or shall be taken. At a minimum the Principal or his/her designee shall contact the parents or guardians as to the status of the investigation on a weekly basis.

Disciplinary actions for students who have committed an act of bullying or retaliation shall be in accordance with district disciplinary policies.

Each school shall document any incident of bullying that is reported per this policy and a file shall be maintained by the Principal or designee. A monthly report shall be provided to the Superintendent. Confidentiality shall be maintained to the extent consistent with the school's obligations under law.

STUDENT RECORDS

State regulations governing student records are briefly summarized below. These regulations are available at the school for review.

A student's record consists of his or her school transcript and temporary record. The temporary record includes all information which is organized on the basis of the student's name, is relevant to the educational needs of the student (including special education files when applicable), and is kept by the school. A student's parent or guardian or an eligible student (who is at least 14 years old or has entered the ninth grade), has the right to inspect all portions of the student's record upon request to the school Principal. The record must be made available to the parent, guardian, or eligible student not later than ten consecutive workdays after the request is made, unless the parent or guardian or eligible student consents to a delay. The parent, guardian, or eligible student may request copies of any part of the record. A fee may be charged for the cost of copying. Non-custodial parent access is governed by State Regulation 603 CMR 23.07 (5).

Confidentiality of Records No individual or organization other than the parent, guardian, eligible student, or school personnel working directly with the student is allowed access to a student's record without specific written consent of the parent, guardian, or eligible student except in limited instances as specified by federal and state statutes and regulations governing student records.

Amendment or Deletion of Records The parent, guardian, or eligible student has the right to add relevant comments, information, or other written material to the student's record. In addition, the parent, guardian, or eligible student has the right to request that information contained in the record be amended or deleted except for information inserted in the record by a Team evaluation. The parent, guardian, or eligible student has a right to a conference with the school principal for the purpose of objecting to information contained in the record. Within a week after such conference, the principal must render a decision in writing on the objection. If the parent, guardian or eligible student is not satisfied with the principal's decision, her or she may appeal such decision to the school Superintendent and ultimately, to the School Committee.

Destruction of Records A student's temporary record shall be destroyed no earlier than seven years after the student leaves the school system. A student's transcript may be destroyed no sooner than 60 years after the student leaves the school system. A school principal or his or her designee may destroy misleading, outdated or irrelevant information contained in the temporary record during the time the student is enrolled in the school system, provided the parent, guardian or eligible student has been notified in writing and given the opportunity to inspect and copy any of the information prior to its destruction. Policy on Release of Student Record Information Pursuant to the federal and state regulations governing student records, Douglas Public Schools may release certain information concerning *your child/you* to third parties without first obtaining your consent unless you notify Douglas Public Schools in writing that you do not want such information to be released. "Third Parties" are defined in these regulations to be "...any person, private or public agency...or organization other than the eligible student, his/her parent, or authorized school personnel." 603, CMR 23.02. For example, third parties to whom Douglas Public Schools may release student record information would include PTOs, the Douglas Schools Foundation, and newspapers which report on student activities, etc. The information that may be released is limited to the following: Student's name, address, telephone listing, date and place of birth, Major field of study, dates of attendance, weight and height of members of athletic teams, class, participation in officially recognized activities and sports, degrees, honors and awards, and post-high school plans.

Students fourteen (14) years of age or older or who have entered the ninth (9) grade are entitled to receive this notification regarding the release of student record information. If you do not want this information concerning your child/yourself to be released without your consent, please send written notification to the office of your school principal no later than Friday, September 28, 2018. You will be asked to review this policy annually.

NOTIFICATION OF RIGHTS UNDER FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the district receives a request for access. Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate or misleading. Parents or eligible students may ask the Douglas Public Schools to amend a record that they believe is inaccurate or misleading. They should write to the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record as requested by the parent or eligible student, the district will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator,

supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Committee; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605.

HOMEBOUND INSTRUCTION

The schools may furnish homebound instruction to those students who are unable to attend classes for at least two consecutive weeks due to a physical injury, medical situation, or a severe emotional problem. The instruction is designed to provide maintenance in the basic academic courses so that when a student returns to school he/she will not be at a disadvantage because of the illness or the hospitalization.

To qualify for the program the student needs a written statement from a medical doctor requesting the homebound instruction, stating the reasons why, and estimating the time the student will be out of school. This statement needs to be sent to the Director of Pupil Services.

Homebound instruction is offered in basic elementary subjects and in secondary subjects which do not require laboratories and special equipment, subject in all cases to the availability of qualified teachers. Certified teachers shall be assigned to homebound instruction by the Superintendent or designee. These provisions are found in the District Policy Manual. Homebound Instruction is policy: IHBF.

EDUCATION OF HOMELESS CHILDREN

To the extent practical and as required by law, the district will work with homeless students and their families to provide stability in school attendance and other services. Special attention will be given to ensuring the enrollment and attendance of homeless students not currently attending school. Homeless students will be provided district services for which they are eligible, including Head Start and comparable pre-school programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs and school nutrition programs. For an inclusive view of district policy for Homeless Students, please go to the District Policy Manual and reference policy: JFABD

ENGLISH LANGUAGE LEARNERS PROGRAM

The District shall provide suitable research-based language instructional programs for all identified English language learners in grades Kindergarten through 12 in accordance with the requirements of state and federal statutes and Massachusetts Dept. of Elementary and Secondary Education regulations and guidance.

The District shall identify students whose dominant language may not be English through home language surveys that identify a primary home language is other than English (PHLOTE), observations, intake assessments, and recommendations of parents, teachers and other persons. Identified students shall be assessed annually to determine their level of proficiency in the English language. For an inclusive view of district policy for English Language Learners, please go to the District Policy Manual and reference policy: IHBEA

STUDENT SUPPORT SERVICES: SPECIAL EDUCATION

In Massachusetts, the special education system is based on federal special education law and the Individuals with Disabilities Education Improvement Act (IDEA, 2004 CFR 300) in concert with the state special education law (MGL c. 71B 603 CMR 28.00). These laws protect students with disabilities who are eligible for special education and guarantees them an Individual Education Program (IEP) to meet their unique needs. The Douglas Public Schools provide a full continuum of special education services for students with disabilities ages 3-22 (without a high school diploma) who have been found eligible for special education. Early Intervening Early intervening is a response to intervention (RTI). This reflects the school district’s responsibility to make every effort to assist a child before making a referral to special education. A procedure is in place in every school in the district to provide the necessary support to students prior to referral. Referral to Special Education When a parent or professional identifies a child as possibly needing special education and related services a referral is made to begin the special education evaluation process. The evaluation process adheres to specific timelines enumerated in the aforementioned regulations. Evaluation Process The evaluation process’ data drives eligibility

determination. Parental consent is required for trained specialists to complete these evaluations. Parents have a right to the assessment reports two days before the Team meeting.

The Team Meeting The Team, which consists of parents, special educators, regular educators, the Special Education Coordinator, related service providers, an individual who can interpret the instructional implications of the evaluation results, and the student (where appropriate) meets to decide eligibility, IEP services, and placement.

Eligibility requires a response to the following questions:

Does the child have a disability? If so, what type? Does this child's disability result in an inability to make effective school progress? Does the child require specialized instruction to make effective progress or require related services to access the general curriculum?

Disabilities for Eligibility include: Autism Developmental Delay Intellectual Impairment Sensory Impairment Neurological Impairment Emotional Impairment Communication Impairment Physical Impairment Health Impairment Specific Learning Disability

Services and placement are decided by the student's educational Team. Students' individual needs drive these decisions and are reflected in the development of an Individual Education Program (IEP).

ALTERNATIVE EDUCATION PROGRAM

Purpose and Guidelines Douglas High School's Alternative Education Program's intent is to meet the individual student's academic, social, emotional, and behavioral needs while maintaining the district's graduation requirements and any other standards established by the school committee in conjunction with all state and federal statutes and laws. The Alternative Education Program serves students in grades 9-12 who demonstrate moderate to significant behavioral, motivational, and/or social issues.

All students enrolled in the Alternative Education Program are expected to adhere to all school rules and standards as described in the Douglas Student Handbook. As such, disciplinary policies and procedures are the same for all Alternative Education Program students that attend Douglas High School.

All students enrolled in the Alternative Education Program are required to abide by MCAS requirements for graduation. Douglas High School's Alternative Education Program's intent is to address and serve the identified needs of the following categories of students:

A) Students currently and/or found to be eligible for special education services with diagnoses of either emotional impairments, health impairments (such as ADD/ADHD), neurological and/or other disabilities that negatively impact their behavior, motivation, and or social skills/relationships;

B) Students currently on 504 plans (with qualified disabilities that also negatively impact the previously identified areas); or

C) Regular education students who illustrate moderate to significant behavioral, motivational, and/or social maladjustment issues.

In all student categories, the degree of issues illustrated must at least moderately negatively impair their own academic progress and /or the academic progress of others. Students will not be considered for placement into the Alternative Education Program unless documented

evidence exists of previous attempts to address students' issues AND said attempts were found appropriate but unsuccessful.

The curriculum of the Alternative Education Program is aligned with the state curriculum frameworks. Every attempt will be made to educate each student in the least restrictive environment while maintaining high educational standards.

The academic focus of the Alternative Education Program is to prepare each student to transition into mainstreamed classroom settings when appropriate. Special education students will continue to receive any accommodations and/or other specialized instructions documented in their educational plans. Consistent and regular monitoring of student progress by program personnel is imperative to assist students in making effective academic and behavioral progress and to modify programmatic approaches as necessary. The monitoring of students is performed via the following:

- Ongoing communication/contact with parents/guardians and school administrators
- Alternative Education Progress Report
- Behavioral/academic rating sheet (The use and design of the behavior-rating format may be modified based on the needs of students.)

RISK ASSESSMENT

In cases where a student threatens the safety of themselves or towards others, the school may require a risk assessment by a qualified and registered support program before allowing the student to continue attending school.

PHYSICAL RESTRAINT

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the Douglas School District. Further, students of the District are protected by law from the unreasonable use of physical restraint.

Physical restraint shall be used only in emergency situations after other less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution. For an inclusive view of district policy for Physical Restraint, please go to the District Policy Manual and reference policy: JKAA

Parental Involvement

Douglas High School considers parental/guardian involvement essential to each student's success. Parents/guardians are important members of their student's Alternative Education Program and are expected to work closely with program teachers and related personnel. Each student's performance (both academic and behavioral) will be evaluated and communicated to parents, either through the Alternative Education Program's progress reports or directly through meetings or other communications. Parents are expected and encouraged to review this information and provide program teachers and personnel with any relevant information that might assist their student's progress.

DISCIPLINARY MEASURES Office Detention Office detention is a disciplinary measure for those students who break school rules. Office detentions may be scheduled on Mondays through Fridays. At the discretion of the administration, a reasonable postponement may be granted in order to accommodate a student's work schedule or other after school obligations such as medical and dental appointments. Students who need to postpone a detention are expected to make prior arrangements with the Principal or Assistant Principal. Office detentions must be served within 5 school days of the original date it was assigned. Students who fail to arrange for such postponement, and who miss detention, will be considered to have skipped detention and disciplined accordingly.
